2016 Research Fair

Judging Criteria:
All submissions will be judged anonymously by at least two independent judges. An unweighted average of each judge’s score will determine the ranking of the student’s submission.

Paper or Project
(10 points) Is significantly challenging
(10 points) Is clear in the objectives of the research
(10 points) States unique contribution
(10 points) Uses appropriate research methods
(10 points) Demonstrates appropriate analytical discussion of results
(10 points) Provides a literature review
(10 points) Conclusions supported by this research
(10 points) Correctly referenced
(10 points) Visual graphics (tables, graphs, charts) are presented clearly
(10 points) Uses correct spelling, grammar and terminology

100 Total Points

Poster
(60 points) Paper or Project Score (times 60%)
(4 points) Clearly states the research objectives
(4 points) Clearly states the relevance of the presentation
(12 points) Clearly states the research methods
(3 points) Clearly states the results of the analysis
(3 points) Clearly states the conclusions of the research
(3 points) Clearly states any limitations to the research and areas for future research
(3 points) Presentation style
(3 points) Responds to questions with authoritative responses
(3 points) Use appropriate terminology oral and written presentation
(2 points) Delivery (speaking voice, eye contact, poise, organization, graphic support)
