Meeting Bachelor's Degree Requirements

Transfer of General Education Requirements

Students who transfer from Missouri public colleges and universities and Missouri private institutions who have adopted Core 42 will be considered as having met the MSSU General Education Requirements 1-5 if they complete:

- An Associate of Arts (AA) or an Associate of Arts in Teaching (AAT) degree; or,
- The Missouri Core 42 requirement; or,
- The designated general education program at the other institution, provided that the institution certifies the student's completion of that program on an official transcript.

Students who transfer an Associate's degree from an accredited Private or Out-of-State College will receive a course-by-course evaluation of their transfer credit that will indicate applicability of their courses to MSSU general education requirements.

Students who have a bachelor's degree from an accredited college or university and who wish to pursue an additional undergraduate degree will be exempt from all general education requirements at MSSU.

Students who have completed or been exempted from the general education requirements by any of the provisions listed above are not exempt from specific course requirements for their majors, even if those courses may be used to satisfy general education requirements at MSSU.
