Graduate Degrees

GR14

2017-2018 Graduates

Response to: What suggestions do you have for improving MSSU?

Additional faculty and staff resources to students interested in diverse fields. Such as in the communication department, the only thing I thought I could do was be in news or media but the options are much more broad than that and students should be given that information.
Better communication about degree requirements or changes to degree plans, consistent advising across campus
Better communication between staff. Every time I ever had a question about anything, most of it was pretty basic stuff, no one seemed to know anything and I was always told to go talk to someone else. I feel like all staff should take a little more time to be able to answer basic questions or know exactly who to send you to for answers. I absolutely hated having to spend an entire afternoon going from one staff member to another and no one having any answers always just sending me off to the next person. It honestly felt like no one cared and just wanted to pass me off to the next person.
Better parking.
Better Wi-Fi. Less fees. More diverse food options in the cafeteria. Less strict parking rules.
Don't charge students for extracurricular activities they don't even use. Like the rec center...
Encourage Freshmen and Sophomore students to take on internships as early as possible. Also, try to find out the challenges that the international students face and offer help accordingly. Otherwise, MSSU is an amazing institution that has molded me into the person I am now. I am forever grateful for all the help I received from the Career Services.
Give students employment options for a Bachelor of Science in Health Science-Business Life so they know what to look for in finding a job. Another suggestion is to not have this degree.
Have a serious discussion with those geese about where they are allowed to poop.
I completed my degree entirely online. I enjoyed the classes and instructors. I liked the set up of the courses and would recommend to anyone wishing to get a degree while continuing to work full time.
I currently have no suggestions for improving MSSU
I enjoyed how easy attend MSSU as a distance learner. Anything you can do (taking off fees for students who never come to campus) to make MSSU more attractive to distance learners is great.
I had an awesome experience. I really can't think of anything to improve upon. All my professor's were professional, insightful, helpful and were more than willing to help guide me in my educational process. I believe that MSSU has the best Criminal Justice program in the United States. It is one of a kind.
I little more connection between students and teachers online
I think there should be a left turn signal at the intersection at Duquesne and the Health Sciences Building
Just to make sure the professors strive in helping the students succeed in all ways! My major (kinesiology) you could definitely see them doing that and other professors in other departments, but not ALL my professors did that, so it would be neat to say all of mine did just that!
Keep caring about students as much as you do! MSSU is an incredible school.
Keep class sizes small
Keep growing your online post graduate degree programs.
Less administration more professors to diversify content areas
Make handicapped parking more accessible
Make online assignments, quizzes, and tests more original
Make surveys more appropriate for online students
Make the gen ed classes more meaningful so that they don't feel like a waste of time and money.
more activities
More advanced excel courses
More attentive advisors. More rigorous applicants process for RA's.
More class options
More evening classes and options for adult learners.
More hybrid and evening classes for non traditional students
More job opportunities for Political Science majors.
More options for days and time of classes.
More options on Masters programs in education. Such as Gifted/Talented, etc.
More parking
MORE PARKING SPACE
More parking spaces. A walk way from the gravel lot by the new football building to the fine arts/Webster parking lot.
More parking, better access to Blackboard through a mobile app (the current one isn't very user friendly), have all staff attend a mandatory in-service for using Blackboard, more campus activities
More parking, Longer Library hours

Response to: What suggestions do you have for improving MSSU? (Continued)

MSSU was the best college for me.
MSSU was the first step to starting my future career. I loved my time at Southern and enjoyed all the opportunities offered while I was a student. Continued outreach to current students is extremely important and I think keeping students informed on all possible opportunities is very important. I'm very happy I chose MOSO as my undergraduate university and would recommend the school to any person looking for a degree.
Music department needs a focus for industry-based careers, and a great place to start would be resources/space.
My department should encourage internships more
My experience at MSSU was very positive.
Need larger format to properly answer this question. Currently in contact with Student Affairs office.
Notifying transfer students of everything included in their tuition. Didn't know I was able to even attend the fitness center until I was about to graduate.
Offer more 8am business courses or more upper level online business courses
Re-evaluate some of the faculty members in the Criminal Justice Department. If several students are making a complaint about a certain professor/class in any department, pay attention to those and actually attempt to rectify them. Some of them could be passed along as just an angry student blowing off steam, but some of those complaints could be legitimate concerns about the quality of your faculty and staff. Investigating those would be worth your time.
Stop funding the athletics.
Stop wasting money on athletics; and please, Taylor Auditorium is in severe disrepair and needs immediate attention. Taylor Auditorium is used by everyone, not just the crappy Theatre Department. Do not be afraid to get rid of ineffective professors who ruin Theatre programs. The University seems to be unaware of a major culture shift in which arts are valued above sports, if the University wants to save itself (everyone who knows it speaks as though its in decline, this is concerning), or simply to improve itself, it should beef up its arts programs so as to become a well-rounded school that provides art for the culturally depleted community of Joplin as well as the culturally hungry low - income students, as this is not a school anyone would choose to go to if they could pay. Know yourself, MSSU, if you want to become a great school. Your job is to provide a decent and worthy education to the less fortunate. It is a noble calling and one that has the potential to supersede any other mission statement in the state of Missouri.
Stress that it's important to treat students like adults. Not children in middle or high school. Some of us work 40+ hours a week, go to school full time and have bills to pay. Not all of us can have our living paid for by parents and worry just about school
The new adjusted finals schedules are terrible for students who do work. It's not always easy to have to make work adjustments. Some of us rely on working hours to pay bills.
The program seemed rather unorganized. It would have been more beneficial to both students and faculty to have 100% online options for the classes.
Updated equipment in the communication department.
Updated Technology
Upgrading lab equipment
Wider variety in course load for international studies
Work on cultivating a stronger school spirit within the community. Promote the campus as a place to engage new ideas and promote critical thinking. That is what college is for.
Work on updating class curriculum and equipment. Internships should be mandatory. I would not have gotten a job without the experience I gained from mine.
