2016-2017 Graduate Comments

Response to: What suggestions do you have for improving MSSU?

A lot of things would need to change to improve somethings
Allow distance students to use rec center when in area
Allow growth for greek life. Members put in more community service hours than any group organization and are proven to give back to campus pre and post graduation. Yet Missouri Southern has one of the most diminished greek societies in the state primarily due to biased stigmas and impossible hurdles placed on organizations by the administration.
Assistancing students with applying for graduate programs.
Better communication, especially within the teacher education department.
Cut university experience class, cut general education classes that we aren't required to have by Missouri, make programs as market sensitive as possible
Focus more on improving academics rather than sports.
Great school
Having staff available to teach classes before the week of classes. Also having enough advisors ON CAMPUS for seniors and juniors. Improving the wifi in the dorms. Having a better book buyback system.
How financial aid contacts with students
I had a REALLY hard time getting a job after graduation. I am a psychology major, and I know it's kind of expected; however, most of the jobs I have gotten, and kept or quit, since graduation, have not required a college degree. I was working with high-schoolers. It was mind blowing how little my degree meant. I don't know what suggestion I have for how to make MSSU better in that regard, but the whole process of post-graduation was pretty terrible for me. Also, I do plan on going to graduate school, but I have no information about any schools. I would suggest that if MSSU really wants to have students with reputable careers, they find some way of pushing graduate programs and making it easier to get to that next step.
I have no suggestions, great school.
I would expand and improve the parking lots. The gravel parking lot messed up my car's alignment and I don't have the money to get it fixed again. I don't start my full-time job until June. Also, I would train advisors to be more caring to students.
Improve all aspects of the nursing program, including communication between instructors, accountability of instructors, and organization of program.
Make the co-op program with Ozark more unified, work together
Make the rec center fee optional.
More emphasis on resume building and internships
MSSU is a great school. Keep putting students needs first. One suggestion for improvement is student and advisor relations. I wish they were more meaningful and involved! A partner through university experience. My advisor expressed no interest in me or my future and I was a bit disappointed.
MSSU should have more fully online degrees. I wanted to have a degree in History but you did not have one and I had to go with a general studies degree.
Offer more MA English degrees
Pay more attention to graduation applications.
Put online students in contact with the Respiratory department. My advisor didn't know much about the online program.
Remember the Roar Fund? We need that. It will be hard to pass because people don't want to spend more money for school, but I think it will build a sense of school pride in the long term.
Small group time with professors based on specific course of study
Sports Management Graduate Program, Graduate Assistant Program
Uniformity in quizzes and testing would be helpful. I had to spend time each semester to decipher how to succeed with my online testing.
