14. Be Prepared to Speak
   Step by step guide to public speaking. This program draws on Toastmaster's experience as the leading public speaking organization. It provides strategies with proven effectiveness. This comprehensive course includes how to write a speech, what to practice and how to get yourself mentally prepared. This program helps you conquer the fear of public speaking and become a skillful, confident speaker. The powerful learning technique of vicarious experience is used in this theatrical video. You learn by watching someone else go through the learning process (27 mins)

120. Body Language - An Introduction To Non-Verbal Communication
   In this clear, fast-paced intro to the sciences of kinesics and proxemics, students learn how gestures mirror inner feelings and how posture can reveal opinions and send messages. Emphasizing that much of communication is nonverbal, this still-image program examines the unwritten-but powerfully enforced rules of eye contact and the concepts of personal and public space, as well as how these concepts differ across cultures. (25 mins)

127. Breaking The Accent Barrier
   American sound & style for all Speakers of English as a second language

28. Doublespeak
   This program looks at how the English language has been inflated and manipulated to distort, obfuscate or cover up meaning, or to replace meaning altogether. Illustrations are drawn from ordinary conversation, advertising, the workplace, and the Iran-contra hearings, which offer a case study of governmental doublespeak. (1993) (28 mins)

132 Great Speeches: Volume II
Welcome to America in the '40's! The end of the Great Depression may be in sight, and spirits are higher. Teenagers linger over malted milks at drugstore counters as their parents head for the local movie house where Gone With The Wind is becoming the biggest hit in motion picture history. Radio is still king, although one of the big attractions of the New York World's Fare is something called television. Watch - and listen - as Franklin D. Roosevelt teaches his grandchildren to swim at their country home in Hyde Park, NY. Cross the country to San Francisco and visit the DiMaggio family restaurant on Fisherman's Wharf. There meet America's most popular sports hero. It's the "summer of the stars". DiMaggio makes at least one hit in 56 consecutive games.

refrigerators on our assembly lines. Bob Hope, Judy Garland and other Hollywood stars entertain our fighting forces around the world. Babe Ruth and Walter Johnson come out of retirement to sell bonds. Meanwhile, at a secret air base in Florida, Lt. Col. James H. Doolittle is training a select group of heroes-to-be for a dramatic bombing raid on Japan. Some will not return, but their successful attack sends a clear message to the enemy. Before 1943 is over, the USA has challenged the Axis powers in North Africa and southern Italy, on Guadalcanal and Tarawa. 60. Home Front (The) 1944-1945
The tide has turned. Postwar hopes and dreams fill American hearts and minds. But radio broadcasts and newsreels remind Americans that the fighting and dying continue. Never before has a war been captured so completely by the motion picture camera. On the home front, Pres. Roosevelt is reelected by a landslide; the worst circus disaster in history occurs in Hartford, CT; an Army B-25 bomber crashes into the Empire State Building; the UN charter is drafted; and because of a newspaper strike, NY City's mayor, Fiorello H. LaGuardia, reads the comics over the radio. Also share fascinating moments with Ronald Regan, Humphrey Bogart, Frank Sinatra, Bing Crosby, Bob Hope, Joe Louis, Army vet Hank Greenberg, and the West Point "Touchdown Twins," Glenn Davis and Doc Blanchard. But the Slogan "V for Victory" is on everyone's mind as V-E Day and V-J Day approach. The joyous sights and sounds of V-J Day, a once-in-a-lifetime event, remain as moving today as they were in that not-so-far-away year, 1945. (60 mins)

75. Martin Luther King "I Have A Dream" (VHS)
The electrifying speech that changed the hearts and minds of a bitterly divided nation. When 200,000 civil rights marchers - black and white - gathered at the steps of the Lincoln Memorial on August 28, 1963, they expected to hear strong words from their spiritual leader, Martin Luther King. What they did not expect was a speech of such heartfelt passion and poetic eloquence that it echoes still in our memory. (25 mins)

The program also teaches how to defeat "speaker's block" and how to use body language to appear natural. (24 mins)

93. Speeches Collection: Adolf Hitler
The world will never forget the horrific consequences of Adolf Hitler's words. Before, only German-speaking people could understand Hitler's messages of propaganda and hatred. Now, through scrupulous research and translation this startling video will present his most dramatic speeches with English subtitles, revealing the demonic phrases he used to hypnotize the masses. (50 mins)

94. Speeches Collection: Franklin D. Roosevelt
FDR was one of our country's most extraordinary leaders. He was born to great privilege and physical hardship. It would have been quite easy for him to have avoided the turmoil of a public life. Yet he chose to serve his country through its worst economic depression and most terrifying World War. FDR felt an inner calling, was fueled by a drive that was almost preordained. This confidence and resolve came through in his every address. Be it campaign speech, state address, fireside chat, or wartime exhortation, the speeches of FDR are filled with the ease of confidence, the sense of manifest destiny, that made him such a natural leader Even today the wit and easy charm of his speeches will delight and inspire you. (45 mins)

95. Speeches Collection: John F. Kennedy
JFK was the most dynamic President in decades. His charismatic message of hope and change led the nation into a "New Frontier." The first President to utilize the medium of television: every speech contained in this tape reverberates with his special lifeforce. You'll see all the major addresses, from his 1960 Presidential campaign through his three controversial years in office. (60 mins)

96. Speeches Collection: Martin Luther King, Jr.
King was perhaps the most inspirational speaker of all times. His words moved a nation with their gripping, passionate plea for racial justice. Follow his electrifying speeches from the early days as a young pastor in Montgomery, to the great march on Washington, including the final prophetic speech in Memphis just days before his tragic assassination. (60 mins)

97. Speeches Collection: Robert F. Kennedy
Robert Kennedy, the young vibrant senator from NY, was one of the most charismatic speakers of our time. His heart-rending eulogy at the funeral of his brother, John, will move you to tears just as it did to millions who watched it for the first time on national TV. This video lets us hear his speeches at Columbia University, his 1964 Democratic Convention address, his wise proposals on new Vietnam policies, his ironic reflections on the assassination of Martin Luther King and much more. (55 mins)

98. Speeches Collection: Winston Churchill
Winston Churchill was the British lion, its bulldog, the defender of its freedom, the pride of her people. In the dark early years of World War II - when all the world cowered before Hitler and his hordes - Churchill alone stood firm. He led his
99. **Speeches of Dwight D. Eisenhower**

Eisenhower was not the country's most forceful or dynamic President, and neither was he the most eloquent public speaker. He spoke haltingly and ill-at-ease. But he was a man of his time, and his honest down-home Kansas farm boy style struck 1950's America as a true note. His speeches do not zing with witticisms and rhetorical barbs, but they do communicate the forthrightness of man. Eisenhower never put on airs and his speeches are a direct reflection of his era. Elvis Presley, ducktails, and cars with fins have all been relived - so we invite you to "like Ike" once again. (60 mins)

6. **Watson-Barker Listening Test Form B**

Listening experts suggest that listeners need to adapt listening styles to particular listening situations. Therefore, the WBLT is made up of 5 parts, each designed to test a particular type of listening comprehension ability. By presenting statements and questions, Part I measures the listener's skill in interpreting message content. By presenting various dialogues, Part 2 tests understand of meaning in conversations. Part III involves listening to a series of brief lectures and tests remembering lecture information. Part IV uses questions and/or statements to measure the listener's skill in interpreting emotional meaning. It requires listeners to attend to HOW something is said as well as WHAT is said. Finally, Apart V measures a listener's ability to follow instructions. Parts I, II and IV are designed to measure the listening skills used in brief listening situations. Parts III and V are designed to measure the listening skills used in longer listening situations. Evaluating individual Part scores allows test takers to assess specific areas where improvement may be necessary. (40 mins)

149. C-SPAN Adventures in Democracy:
Noted historians, political figures, academicians, and authors participated in this four-part series to examine the impact C-SPAN has had on our media culture.

CD 1 - Book-TV: Promoting Citizen's Literacy: Through Book-TV-airing every weekend, all weekend, on C-SPAN 2 - the network has significantly fueled the literacy movement in this country, creating a greater interest in books on history, politics, and public affairs. This seminar examined Book-TV's impact on the democratic process-how by creating a national forum for dialogue about books on these subjects, it has helped to develop an informed, engaged citizenry.

CD 2 - C-SPAN and Congressional Hearings: C-SPAN opened the dialogue between the public and Congress by televising congressional hearings live. What happens at a day's hearings instantly becomes part of the national discourse, and the recorded C-SPAN telecasts serve as an accessible historical record of testimony, raising the bar on witnesses accountability. Panelists examined C-SPAN's influence on congressional hearings and the nation's political consciousness. (This seminar was part of the Museum's Robert M. Batscha University Satellite Seminar Series.)

CD 3 - C-SPAN and the Judiciary: This seminar evaluated the arguments for and against cameras in federal courts - including the Supreme Court - and imagined the impact that C-SPAN could have on the nation's judicial process if it were allowed to adapt its legislative model to the judicial system.

CD 4 - C-SPAN Radio: Preserving the Presidency: This seminar focused on audio/visual material of the Lyndon Johnson and Ronald Regan administrations that has been preserved and made accessible by C-SPAN and presidential libraries. Panelists considered how this information adds to our knowledge of the Johnson and Reagan presidencies and what these tapes reveal about national security, foreign policy, and the executive process.

Gives background on Germany's role in the EU - its early years and current situation. Overview of the problems of integrating the former GDR economy into the EU. Spotlights EU solutions to the problems of joblessness, industrial waste, environmental pollution. Describes the support framework developed for the 5 new Lander (federal
states) by the EU. (5) A Growing Europe - Addresses the pressing enlargement issue, highlighting the application process and impending entrance into the EU by Austria, Sweden, Norway, & Finland. It also serves to illustrate the history of growth & continued integration dating from the inception of the Community in 1955 to the present. Features a number of ministerial interviews & dialogue relating to unrest in Eastern Europe and the theme of a EU stretched from the Atlantic to the Urals.” (56 mins)

34. European Union: Implementing Common Policies
   (1) The Union & its Regions - This video illustrated the Union's policies in favor of regional development as well as the main points of the reform of the Structural Fund (doubling the fund by 1992, decentralization, etc.). A number of graphics help situate the problems. (2) The White Paper: Europe Toward the 21st Century - Addresses the growing employment and economic difficulties faced by the EU as it moves into the next century. In order to solve some of the economic and employment dilemmas, the EU has developed the White Paper which calls for the creation of 15 million jobs and a 3% expansion in the EU's over GNP over the next 3 years. This presentation highlights the structural changes mandated by the White Paper, which coincide with international trade accords such as the GATT). (3) The Treaty on the European Union - Combining cartoon segments with real life video and dramatizations, this engaging program describes the changes taking place & the programs that are being implemented since the Maastricht Treaty came into force. Topics include Monetary Union, Economic Union, The Cohesion Fund, cultural diversity, decentralization of policy making, security and defense, aid to East Europe and the Third World, and unemployment. (4) 1992 and Beyond - Follows European Union member country nationals who are collaborating on the production of a CD recording featuring cellist Catherine Ramsey. The benefits of the enlarged and enriched Single Market are illustrated by the free movement of labor, goods, services, and capital in this artistic commercial endeavor. Citizens of Europe can now engage in fair and equal competition due to fewer restrictions in the movement of capital and closer economic coordination. (47 mins)

35. European Union: International Cooperation
   (1) Extraordinary Partners: The European Union & the US - Events in the EU's evolution, from its inception in the '50s to the present, are illustrated with archival footage, interviews in Washington with American and European statesmen/women and other experts, and animated graphics. Man-on-the-street interviews bring humorous and somewhat surprising responses. The program's theme centers on the economic interdependence between the US & the EU & the importance of their partnership, formalized in the 1990 Transatlantic Declaration. (2) PHARE, the EU Aid Program for Eastern Europe - An in-depth look at the EU's aid program for Eastern and Central Europe. PHARE, originally an acronym for Poland Hungary Assistance for the Reconstruction of the Economy, now supports projects in 11 countries from the Baltic to the Adriatic. Privatization and restructuring is one of the key areas of focus. Among the specific projects described are: assistance with the formation of farm cooperatives in Poland, financing preparation of state enterprises for privatization such as a steel works in Poland, helping to reopen the Budapest Stock Exchange after a 43 year closure, assisting the Ministries of Labor, Health and Education in Albania with labor exchanges, and sharing marketing knowledge through Business support Centers. (3) Lome Mark Four: Stability in a Changing World - Shows that the African, Caribbean and Pacific, or ACP countries representing the poorest and most heavily indebted nations of the world are still a source of continuing interest from the Union. On December 15, 1989 in Lome, 80 countries from the North and South sign a new cooperation agreement, a pact that will bind them together for the next 10 years. (59 mins)

150. Examining Opinion and Bias In The News
   Partnering with the Newsroom, the Poynter Institute and the National Press Club, the MSU School of Journalism's daylong event included three panels: 1) Stealth messages: Do hidden agendas seep into media coverage? 2) News media or noisemakers: Who is a journalist? 3) What you see and what you think: Reflecting on the power of images. More than a dozen journalists from media outlets including CNN, the Chicago Tribune and USA Today participated in the panels. MSU alums Karen Brown Dunlap (BA, Journalism 1971), president of the Poynter Institute, and John Pompeo (BA, Journalism 1984) WDIV photojournalist and co-founder and past president of the Michigan Television Photographers Association, were among the panelists. The keynote luncheon address was presented by Sam Donaldson of ABC News.

43. Four Days in November: The Assassination of President Kennedy
   How CBS covered the assassination and funeral of the 35th President in November of 1963. On Friday, Nov. 22, 1963, at 1:4 p.m. (ET), a news bulletin read by Walter Cronkite interrupted AS THE WORLD TURNS and reported shots fired on the President's motorcade in Dallas. Beginning then, and for the next 4 days television became what producer Perry Wolff calls a "national hearth" around which stunned and saddened Americans gathered. Edited from 56 hours this 25th anniversary commemoration is not intended "to make commentary on the past (but) to bring it back." says anchor Dan Rather, who reported on the assassination from Dallas. Included...confirmation of Kennedy's death at Parkland Hospital: the arrest of Lee Harvey Oswald; reactions from former Presidents Eisenhower and Truman, and Rev. Martin Luther King Jr.; the Nov. 24 slaying of Oswald by Jack Ruby-seen on live TV - in the basement of the Dallas city jail; public viewing of the President's flag-draped casket in the Capitol Rotunda that same day; and, on Nov. 25 - proclaimed by President Lyndon B. Johnson as "a day of national mourning" - the stately march of family members, Government officials and world leaders behind a horse-drawn caisson carrying the casket to St Matthew's Cathedral and then to Arlington National Cemetery. 49. Gladiators: Bloodsport of the Colosseum
   The Roman Colosseum was the setting for more violence, agony and horror than has ever been witnessed anywhere, before or since. Often the fresh blood of gladiators was used as a cure for epilepsy. It was also considered a good luck charm for brides-to-be to dip their combs in gladiator's blood. Who were the gladiators? Where did they come from? How did they live? This fascinating video follows gladiators through their training, choice of costumes, weapons and style of combat to their rise to stardom and their inevitable violent death. So popular did some gladiators become that many Roman women were prepared to give anything to meet and be with the idol they worshiped. A compelling video insight into the "world of gladiators." 54. Hail to the Chief: 41 Presidential Portraits
The first, complete overview of the American Presidency from George Washington to the inauguration of President Clinton. The presidency has been shaped and reshaped by 42 men. It has become the symbol of unity that holds the nation together. The material presented in this video portrait was drawn from the resources of NBC News, the National Archives, historical societies, the Library of Congress, and noted American historians and biographers. Americans take great pride in the men they elect to the highest office in the land. They are also fascinated by the persona each man projects and how he leads the nation. This special video gives a brief assessment of their character, the state of the nation during their term, and the achievements of their presidency. "Hail To The Chief" is a must for home, school, or library. It is a visual history of over 200 years of democracy in action and an expression of the continuing faith we have in our presidents and in ourselves.

Throughout their 50 year run on the nation's movie screens, until they disappeared in the late 60's, theatrical newsreels featured stories of national disasters, wars, politics, and often upheavals. They usually ended with an odd story, odd personality or the comic side of life. The intent was to "lighten-up" the newsreel based on the premise that Americans came to the movies "to get away from it all" and to be entertained. Watchable over and over, these segments are educational, historical, informative, and infinitely collectible. Capturing the way we were, this black-and-white newsreel trivia was compiled and edited from the famous Hearst News library. It's nostalgia at its finest. Some of the 107 newsreel segments include: Rudolph Valentino's death, Mickey Mouse premiers, the 20's and 30's Dance Marathons, Clark Gable is a Star, Howard Hughes crashes, the "It" Girl of the 20's, 1937 Miss America says No, the FBI and the Gangsters. "Wrong Way Corrigan," Galloping Gerty breaks, Hope and Crosby join USO, one-armed Pete Gray, the Bikini Sensation, Rita Hayworth and Aly Khan, the Edsel, Hula Hoop craze, Marilyn Monroe, and Elvis in the Army. It's all here - the remarkable, funny nostalgia headlines of the bygone theater newsreel era. (90 mins)

61. Human Voice: Exploring Vocal Paralanguage
The voice is an extraordinary human instrument. When we speak, our voice reveals our gender, age, geographic background, level of education, emotional state, and our relationship with the person spoken to. All these clues (and many more) are contained in even small fragments of speech, because our voices can be interpreted with remarkable accuracy. When we speak, we 'encode' important information about ourselves; when we listen to others, we can 'decode' important information about the speaker. This video explores the power, dimensions, and facets of this uniquely human instrument.

The program shows how they should be presented, and how long each story should run; how new stories that come in are
recorded edited, illustrated with graphics, and then updated or dropped as later or more important news comes in - altogether an extraordinary example of frenzied human efficiency.  (40 mins)

148.  Murder of JFK: Confession of an Assassin
Since 1989, private investigator Joe West had diligently devoted his time, money, and life to an exhaustive search for the real killer(s) of President JFK.  After a dedicated, laborious and often frustrating journey filled with dead-ends, West had all but given up when he received a tip from a most unlikely source...an FBI agent who demanded to remain anonymous.  The tip led Joe West to Joliet State Penn where an inmate named James E. Files was serving a 50-year sentence for shooting an Illinois state policeman.  West had reason to believe that Files was indeed involved in the assassination of JFK.  What followed was a relationship between Joe West and James Files which grew so close that Files was virtually ready to reveal his role in the murder of the President.  As fate would have it however shortly before the confession was to be taped Joe West suddenly died of a heart attack.  Moved by what he believed was the death of a real friend and a sense of obligation to both West and West's widow, Files still agreed to give a complete interview, in which he confessed (in great detail) to his complicity in the events that took place on Nov. 22, 1963 in Dallas TX.  The video is presented in its uncut form with no editorial comments added or deleted.  The publishers can only hope that it will lead to further investigations of the events and profiles that comprised what is still considered one of the most shocking events in American history.

105. Television and the Presidency
   A unique teaching tool. How has television affected the presidency? Here is a unique addition to your classroom lectures about a powerful office and a powerful medium. Veteran TV journalist Sander Vanocur has produced this fascinating three-segment series that examines television and the White House. The film looks at the impact that TV has had on our presidents: how some of them were able to use TV and how others were used by it. This will be a valuable tool that can be broken up into three 30-minute segments. Or you may want your students to watch all three in a single class. The report is based on a series of 3 hour-long discussions held in Washington with virtually all of the living former and current White House press secretaries and with the print and TV journalists who have had the Pennsylvania Avenue beat. Those discussions are buttressed by TV footage of the presidents, bringing history to life for your students. Some of the White House officials, press secretaries and reporters involved in the segments include: Clark Clifford, Pierre Salinger, Dee Dee Myers, Ron Ziegler, Russell Baker, and Ann Compton. Former White House correspondent Sander Vanocur drew on 4 decades of experience to create the videos while serving as a Visiting Professional Scholar with the Freedom Forum First Amendment Center at Vanderbilt University.

6. What Do You Mean?
   For most people, understanding what someone else means is not always an easy task. There are often confusing double messages and conflicting expectations, a situation that is especially challenging for adolescents. In this video, a group of
10 Halifax high school students agree to take part in a 2 week project to explore how issues arising from gender communication affect both their social and intimate relationships. It was sometimes an unsettling process: "Telling exactly what you mean involves a lot of risk," admits Jessie, as he reflects on why boys are less open with their feelings than girls. And some of the girls in the group are very direct about their standards of behavior: "I want someone who can grab my heart through words instead of grabbing my wrist," declares Michelle. These honest, often intense discussions are interspersed with role-playing and peer interviews. The students cover an impressive range of concerns such as flirting and confusion over body language, sex, love, and ways of resolving anger in relationships. Family Studies teachers, guidance counselors, and leaders of community-based youth groups will find this video a useful resource. While the short, themed segments and a brisk pace are designed to stimulate discussion, this tape offers valuable insights into the unique and ever-changing realm of teen communication. (29 mins)

88. Women With A Past
   Brings together 4 20th century artists, Christine Choy, Yvonne Rainer, Martha Rosler & Nancy Spero, in videotaped interviews whose shape and editing by Lyn Blumenthal is in itself an examination of the art of documentary. Rainer's personal involvement in psychoanalysis manifests itself in scenes such as the one from her film "The Man Who Envied Women". In "Losing," Rosler explores the ways in which people imagine their lives are separate from, rather than subject to the world around them. Spero's political art work found its first real impetus in the Vietnam War. Choy came to the US in the activist '60's. Her personal experience of a mixed ethnic and national background finds expression in the film "Mississippi Triangle". (70 mins)
