

Job Shadow Form

1. You must job shadow as part of the application process to the radiology program at MSSU. You should perform your observations in the general diagnostic area (not specialty areas such as ultrasound, nuclear medicine, MRI or CT), since this area will comprise the majority of your two years of training.
2. Print off this form and take it with you to have it signed by a technologist at the site where you job shadow.
3. During your job shadow, you should find out the answers to the questions listed below.
4. On a separate page, answer the questions and submit them as part of your application to the radiology department at MSSU.

_____ observed _____ hours in the radiology
(Name of student applicant)

department at _____ on _____.
(Name of Hospital/Institution) (Date of observation)

(Signature of R.T.)

Questions to be completed by the applicant on a separate sheet of paper.

1. List the general responsibilities of the radiologic technologist.
2. What are some of the advantages and disadvantages of this profession.
3. What physical qualifications are required to be a radiologic technologist.
4. Describe why it is important for student applicants to possess an aptitude and have knowledge in the sciences.
5. List the exams that were observed and give a brief overview of each one.
