2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

4. Please provide any additional information about the information provided above:

Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2018-19. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	<input type="text" value="83"/>
Number of clock hours required for student teaching	<input type="text" value="640"/>

Are there programs in which candidates are the teacher of record?

- Yes
 No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)	
Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	<input type="text"/>
Number of years required for teaching as the teacher of record in a classroom	<input type="text"/>

All Programs	
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)	<input type="text" value="32"/>
Optional tool for automatically calculating full-time equivalent faculty in the system	
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	<input type="text" value="17"/>
Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year	<input type="text" value="101"/>
Number of students in supervised clinical experience during this academic year	<input type="text" value="101"/>

Please provide any additional information about or descriptions of the supervised clinical experiences:

Enrollment and Program Completers

THIS PAGE INCLUDES:

[» Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(\$205(a)(1)(C)(ii))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Enrolled Student](#)
- [Program Completer](#)

Enrollment and Program Completers

2018-19 Total

Total Number of Individuals Enrolled

263

Subset of Program Completers

98

Gender	Total Enrolled	Subset of Program Completers
Male	59	21
Female	204	77
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	12	4
Asian	4	1
Black or African American	3	1
Hispanic/Latino of any race	21	5
Native Hawaiian or Other Pacific Islander	0	0
White	208	83
Two or more races	7	3
No Race/Ethnicity Reported	8	1

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	9
13.1202	Teacher Education - Elementary Education	58
13.1203	Teacher Education - Junior High/Intermediate/Middle School Education	13
13.1210	Teacher Education - Early Childhood Education	5
13.1301	Teacher Education - Agriculture	
13.1302	Teacher Education - Art	1
13.1303	Teacher Education - Business	
13.1305	Teacher Education - English/Language Arts	8
13.1306	Teacher Education - Foreign Language	2
13.1307	Teacher Education - Health	
13.1308	Teacher Education - Family and Consumer Sciences/Home Economics	
13.1309	Teacher Education - Technology Teacher Education/Industrial Arts	
13.1311	Teacher Education - Mathematics	4
13.1312	Teacher Education - Music	3
13.1314	Teacher Education - Physical Education and Coaching	4
13.1315	Teacher Education - Reading	
13.1316	Teacher Education - Science Teacher Education/General Science	4
13.1317	Teacher Education - Social Science	3

CIP Code	Subject Area	Number Prepared
13.1318	Teacher Education - Social Studies	10
13.1320	Teacher Education - Trade and Industrial	
13.1321	Teacher Education - Computer Science	
13.1322	Teacher Education - Biology	2
13.1323	Teacher Education - Chemistry	
13.1324	Teacher Education - Drama and Dance	2
13.1328	Teacher Education - History	6
13.1329	Teacher Education - Physics	
13.1331	Teacher Education - Speech	2
13.1337	Teacher Education - Earth Science	
13.14	Teacher Education - English as a Second Language	2
13.99	Education - Other Specify: <input type="text"/>	<input type="text"/>

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education-Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

- Yes
 No

No teachers prepared in academic year 2018-19

If your program does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or [clear responses already entered](#)).

CIP Code	Academic Major	Number Prepared
13.10	Teacher Education - Special Education	9
13.1202	Teacher Education - Elementary Education	58
13.1203	Teacher Education - Junior High/Intermediate/Middle School Education	13
13.1210	Teacher Education - Early Childhood Education	5
13.1301	Teacher Education - Agriculture	
13.1302	Teacher Education - Art	1
13.1303	Teacher Education - Business

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Training provided to prospective teachers responds to the identified needs of the local educational agencies or States where the institution's graduates are likely to teach, based on past hiring and recruitment trends. Yes Departmental and campus committee meetings with unit administration and pk-12 partners to review data and discuss school district needs and feedback. Ongoing review of data to monitor and engage in program improvement at the content area and departmental level. Prospective teachers participate in Student Teaching Seminars that address Critical Issues such as diversity, legal and ethical issues, differentiated instruction, and current issues related to the experiences of the prospective teachers in the field. Training provided to prospective teachers is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Departmental and campus committee meetings with unit administration, faculty, staff, campus content area colleagues and pk-12 partners to review data and discuss content area program needs and feedback.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(\\$205\(a\)\(1\)\(A\)\(i\), \\$205\(a\)\(1\)\(A\)\(ii\), \\$206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

THIS PAGE INCLUDES:

- >> [Report Progress on Last Year's Goal \(2018-19\)](#)
- >> [Review Current Year's Goal \(2019-20\)](#)
- >> [Set Next Year's Goal \(2020-21\)](#)

Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in mathematics in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

We plan to increase prospective teachers to our Mathematics Education program.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

We conigned to work diligently with our Mathematics department on campus, as well as admissions/transfer team and PK-12 partners in recruiting more prospects for our mathematics teacher education program.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in mathematics in 2019-20? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

Our goal is to continue to grow our Mathematics Education program, especially since it is a high need area. Our goal is to increase prospective mathematics education teachers.

Set Next Year's Goal (2020-21)

9. Will your program prepare teachers in mathematics in 2020-21? If no, leave the next question blank.

- Yes

No

10. Describe your goal.

Our goal is to continue to grow our Mathematics Education program, especially since it is a high need area. Our goal is to increase prospective mathematics education teachers.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(\\$205\(a\)\(1\)\(A\)\(i\), \\$205\(a\)\(1\)\(A\)\(ii\), \\$206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in science in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Our goal is to increase prospective science teacher education majors in our program.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

By continued work with admissions/transfer team, science department and Pk-12 partners to recruit more science education majors.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in science in 2019-20? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

Our goal is to increase prospective science teacher education majors in our program.

Set Next Year's Goal (2020-21)

9. Will your program prepare teachers in science in 2020-21? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

Our goal is to increase prospective science teacher education majors in our program, especially since we know it is a high need area.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in special education in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Our goal is to increase prospective special education candidates to our program.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

Yes we met the goal through our pathway development with elementary education 1-6 and the add on certification for special education k-12.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in special education in 2019-20? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

Our goal is to increase prospective special education candidates to our program.

Set Next Year's Goal (2020-21)

9. Will your program prepare teachers in special education in 2020-21? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

We are continuing with our Elementary Pathways that will reduce hours to add on certifications. This will continue to increase the number of special education completers.

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(\\$205\(a\)\(1\)\(A\)\(i\). \\$205\(a\)\(1\)\(A\)\(ii\). \\$206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Yes
 No

10. Describe your goal.

We are continuing our Elementary Pathways that will reduce hours to add on certifications. This will continue to increase our ELL completers.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (**§205(a)(1)(B)**)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

>> [Low-Performing](#)

Provide the following information about the approval or accreditation of your teacher preparation program. (**[§205\(a\)\(1\)\(D\)](#)**, **[§205\(a\)\(1\)\(E\)](#)**)

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

[» Use of Technology](#)

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The MSSU Teacher Education Program considers technology a very important component of professional and pedagogical knowledge and skills. In EDUC 321 Microteaching candidates are required to demonstrate effective use of technology, including using the Smart board, to support lesson objectives. All methods courses require candidates to demonstrate that they can effectively integrate technology into lesson plans. The MSSU Lesson Plan requires candidates to document use of technology in each lesson plan. Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline. Must be taken concurrently with Educ 329 and Educ 423. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Must be taken concurrently with Educ 321 and Educ 423. Any off campus offerings require instructor's permission prior to enrollment. Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Must be taken concurrently with Educ 329 and Educ 321. In order to document that MSSU teacher candidates accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students, the department uses the Teacher Candidate Formative Assessment and Teacher Candidate Summative Assessment produce by the Missouri Department of Elementary and Secondary Education. Faculty incorporated the nine MoSPE Standards into the design of the MSSU Teacher Candidate Assessments. The MSSU Rubric is divided into nine sections aligned with the nine MoSPE Teacher standards and components of the Missouri Educator Evaluation System: I. Content Knowledge, II. Student Learning, III. Curriculum Implementation, IV. Critical Thinking, V. Positive Classroom Environment, VI. Effective Communication, VII. Student Assessment and Data Analysis, VIII. Professionalism, and IX. Professional Collaboration. The MEES is standards-based instructional sequence; employ decision-making processes that continuously search for the most appropriate fit among the various aspects of instructional context, subject matter knowledge, and repertoire of appropriate instructional strategies and procedures; document student performance; and then reflect on the effects of his/her instruction on student learning. The MEES is aligned with the MoSPE Teacher Standards completed during student teaching, and evaluated by full time faculty advisors. The levels on the scoring rubric are Baseline = 0, Emerging 1 = 1, Emerging 2 = 2 and Developing = 3. These data validate that candidates have the pedagogical content knowledge and skills required in their respective certification areas. Graduate data: The state (DESE) survey for 1st year teachers and administrators validates the program. The mean score of MSSU students falls above the state average for Use of Technology.

Provide the following information about your teacher preparation program.

(S205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline. Must be taken concurrently with Educ 329 and Educ 423. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Must be taken concurrently with Educ 321 and Educ 423. Any off campus offerings require instructor's permission prior to enrollment. Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Must be taken concurrently with Educ 329 and Educ 321. Degree requirements for all program completers – either EDUC 302: The Exceptional Child (F, S, Demand) 2 hrs. cr.: The Exceptional Child - This course is designed for all majors and will include a series of awareness experiences dealing with the added complexities an exceptional student presents to a regular classroom teacher. This course emphasizes methods of meeting the diverse educational needs of today's secondary students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional student, resources in the community, and legislation that determines school policy. Components of the aforementioned EDUC 302 and EDUC 329 courses as well as presentations by teacher education and pk-12 instructional and administrative experts. Physical Education Teacher Education majors take KINE 375: Adapted Physical Education

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline. Must be taken concurrently with Educ 329 and Educ 423. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Must be taken concurrently with Educ 329 and Educ 321. Degree requirements for all program completers – either EDUC 302 The Exceptional Child (F, S, Demand) 2 hrs. cr. - This course is designed for all majors and will include a series of awareness experiences dealing with the added complexities an exceptional student presents to a regular classroom teacher. This course emphasizes methods of meeting the diverse educational needs of today's secondary students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional student, resources in the community, and legislation that determines school policy. Components of the aforementioned EDUC 302 and EDUC 329 courses as well as presentations by teacher education and pk-12 instructional and administrative experts

c. Effectively teach students who are limited English proficient.

Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline. Must be taken concurrently with Educ 329 and Educ 423. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Must be taken concurrently with Educ 321 and Educ 423. Any off campus offerings require instructor's permission prior to enrollment. Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Must be taken concurrently with Educ 329 and Educ 321. Degree requirements for special education program completers – either EDUC 302 (The Exceptional Child) - This course is designed for 1-6 Elementary, 5-9 Middle School, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. It includes an introduction to the five areas of mild/moderate disabilities: learning disabled, mentally handicapped, behavior disordered, physically disabled, and other health impaired. A series of awareness experiences dealing with the added complexities an exceptional child presents to K-12 regular and special education teachers. This course emphasizes methods of meeting the diverse educational needs of today's K-12 students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional child, resources in the community, and legislation which determines school policy. Required for 1-6 Elementary, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. Psy 305 (F, S) 4 hrs. cr. Child & Adolescent Development - Aspects of human development from conception to adolescence are examined, including, physical, emotional, social, and cognitive development. Emphasis is given to theoretical frameworks and their practical implications. Cross-cultural comparisons are included wherever appropriate. Prerequisite: Psy 100 with a grade of 'C' or above. EDUC 380: Second Language Acquisition and EDUC 480: Instructional Techniques ELL

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective

teaching skills as enumerated in the outline. Must be taken concurrently with Educ 329 and Educ 423. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Must be taken concurrently with Educ 321 and Educ 423. Any off campus offerings require instructor's permission prior to enrollment. Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Must be taken concurrently with Educ 329 and Educ 321. Degree requirements for special education program completers – either EDUC 302 The Exceptional Child - This course is designed for 1-6 Elementary, 5-9 Middle School, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. It includes an introduction to the five areas of mild/moderate disabilities: learning disabled, mentally handicapped, behavior disordered, physically disabled, and other health impaired. A series of awareness experiences dealing with the added complexities an exceptional child presents to K-12 regular and special education teachers. This course emphasizes methods of meeting the diverse educational needs of today's K-12 students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional child, resources in the community, and legislation which determines school policy. Required for 1-6 Elementary, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. Psy 205 (F, S) 4 hrs. cr. Child & Adolescent Development - Aspects of human development from conception to adolescence are examined, including, physical, emotional, social, and cognitive development. Emphasis is given to theoretical frameworks and their practical implications. Cross-cultural comparisons are included wherever appropriate. Prerequisite: Psy 100 with a grade of 'C' or above. Educ 348 (S) 2 hrs. cr. Transition Services - A coordinated set of activities for a student designed within an outcome-oriented process that promotes movement from school to post-school activities, including post-secondary education, vocational training, integrated employment, continuing and adult education, adult services, independent living, or community participation. Study of coordinated activities, including instruction, community experiences, employment, and other post school adult living objectives. Prerequisite: Educ 302. May be taken concurrently with the Junior Block or the Professional Semester. Educ 331 (F) 3 hrs. cr.: Language Development for Exceptional Children - Required for certification in special education. Basic structures of language, normal sequence of language acquisition, and characteristics of language disabilities. Strategies suggested for both assessing and remediating language delays or disorders, (Should be taken concurrently with Junior Block courses.) Prerequisite: Educ 302. Educ 474 (F) 3 hrs. cr.: Educational-Psychological Testing in Special Education - Comprehensive study of the various psycho-educational assessment techniques for diagnosis of learning problems of exceptional children, including educational, intelligence, and psychomotor. Emphasis on translating assessment data to remedial programs. Prerequisites: Educ 302 and Psy 310. Educ 410 (S) 3 hrs. cr.: Teaching in the Mild/Moderate: Cross-Categorical Classroom: K12 - A methods course designed to give students numerous examples of curricular and instructional methodologies in the teaching of elementary and secondary students with mild disabilities in cross-categorical classrooms. Methodologies for students with learning disabilities, mental handicaps, behavior disorders, physical disabilities, and other health impairments are discussed. Prerequisite: Educ 302 and Junior Block. Components of the aforementioned EDUC 302 and EDUC 329 courses as well as 12 instructional and administrative experts. Educ 381, 3 hrs cr: Teaching in a Multicultural Society. Educ 387, 3 hrs cr: Grammar for Pedagogical Purposes. Educ 385, 3 hrs cr: Assessment in ELL- must be taken concurrent or post Educ 329, 321 and 423.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline. Must be taken concurrently with Educ 329 and Educ 423. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Must be taken concurrently with Educ 321 and Educ 423. Any off campus offerings require instructor's permission prior to enrollment. Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Must be taken concurrently with Educ 329 and Educ 321. Degree requirements for special education program completers – either EDUC 302 The Exceptional Child - This course is designed for 1-6 Elementary, 5-9 Middle School, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. It includes an introduction to the five areas of mild/moderate disabilities: learning disabled, mentally handicapped, behavior disordered, physically disabled, and other health impaired. A series of awareness experiences dealing with the added complexities an exceptional child presents to K-12 regular and special education teachers. This course emphasizes methods of meeting the diverse educational needs of today's K-12 students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional child, resources in the community, and legislation which determines school policy. Required for 1-6 Elementary, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. Psy 205 (F, S) 4 hrs. cr. Child & Adolescent Development - Aspects of human development from conception to adolescence are examined, including, physical, emotional, social, and cognitive development. Emphasis is given to theoretical frameworks and their practical implications. Cross-cultural comparisons are included wherever appropriate. Prerequisite: Psy 100 with a grade of 'C' or above. Educ 348 (S) 2 hrs. cr. Transition Services - A coordinated set of activities for a student designed within an outcome-oriented process that promotes movement from school to post-school activities, including post-secondary education, vocational training, integrated employment, continuing and adult education, adult services, independent living, or community participation. Study of coordinated activities, including instruction, community experiences, employment, and other post school adult living objectives. Prerequisite: Educ 302. May be taken concurrently with the Junior Block or the Professional Semester. Educ 331 (F) 3 hrs. cr.: Language Development for Exceptional Children - Required for certification in special education. Basic structures of language, normal sequence of language acquisition, and characteristics of language disabilities. Strategies suggested for both assessing and remediating language delays or disorders, (Should be taken concurrently with Junior Block courses.) Prerequisite: Educ 302. Educ 474 (F) 3 hrs. cr.: Educational-Psychological Testing in Special Education - Comprehensive study of the various psycho-educational assessment techniques for diagnosis of learning problems of exceptional children, including educational, intelligence, and psychomotor. Emphasis on translating assessment data to remedial programs. Prerequisites: Educ 302 and Psy 310. Educ 410 (S) 3 hrs. cr.: Teaching in the Mild/Moderate: Cross-Categorical Classroom: K12 - A methods course designed to give students numerous examples of curricular and instructional methodologies in the teaching of elementary and secondary students with mild disabilities in cross-categorical classrooms. Methodologies for students with learning disabilities, mental handicaps, behavior disorders, physical disabilities, and other health impairments are discussed. Prerequisite: Educ 302 and Junior Block. Components of the aforementioned EDUC 302 and EDUC 329 courses as well as 12 instructional and administrative experts. Educ 381, 3 hrs cr: Teaching in a Multicultural Society. Educ 387, 3 hrs cr: Grammar for Pedagogical Purposes. Educ 385, 3 hrs cr: Assessment in ELL- must be taken concurrent or post Educ 329, 321 and 423.

c. Effectively teach students who are limited English proficient.

Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline. Must be taken concurrently with Educ 329 and Educ 423. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Must be taken concurrently with Educ 321 and Educ 423. Any off campus offerings require instructor's permission prior to enrollment. Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Must be taken concurrently with Educ 329 and Educ 321. Degree requirements for special education program completers – either EDUC 302 (The Exceptional Child) - This course is designed for 1-6 Elementary, 5-9 Middle School, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. It includes an introduction to the five areas of mild/moderate disabilities: learning disabled, mentally handicapped, behavior disordered, physically disabled, and other health impaired. A series of awareness experiences dealing with the added complexities an exceptional child presents to K-12 regular and special education teachers. This course emphasizes methods of meeting the diverse educational needs of today's K-12 students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional child, resources in the community, and legislation which determines school policy. Required for 1-6 Elementary, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. Psy 205 (F, S) 4 hrs. cr. Child & Adolescent

Development - Aspects of human development from conception to adolescence are examined, including, physical, emotional, social, and cognitive development. Emphasis is given to theoretical frameworks and their practical implications. Cross-cultural comparisons are included wherever appropriate. Prerequisite: Psy 100 with a grade of 'C' or above. EDUC 380: Second Language Acquisition and EDUC 480: Instructional Techniques for ELL

Contextual Information

On this page, review the contextual information about your program. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Missouri Southern State University is a state-supported, four-year, moderately selective undergraduate teaching institution located in Joplin, MO. Faithful to its original charter, the University also offers continuing education courses and a number of two-year programs in technical and vocational areas for the benefit of the community. Missouri Southern is a fully NCATE accredited institution. The university's primary emphasis is the offering of a baccalaureate program that fosters the total education of each student. Central to the mission is a strong commitment to international education through the institution's enhanced International Mission. The citizens of Joplin, who in the late 1930s asked the public school district to offer college classes, could not have envisioned the sprawling campus and multidiscipline curriculum that today is Missouri Southern State University. From that initial request came Joplin Junior College, founded in 1937 as part of the Joplin school system. Nine faculty members and 114 students began classes under the auspices of the Extension Division of the University of Missouri in the new high school building. In the spring of 1938, voters approved almost five-to one a bond proposal that would assure the continuation of the junior college. During the next 25 years Joplin Junior College established a national reputation for outstanding academic strength, a strong foundation for what was to come. By the mid-1960s, area citizens again recognized the need for expanded educational opportunities. In 1964, the citizens voted eight to one to create the Junior College District of Jasper County with a Board of Trustees to govern the newly named Jasper County Junior College. The following year, the Missouri General Assembly established a two-year senior college to be funded by the state when facilities of the junior college became available. The district would continue to fund the freshman and sophomore years. The area again responded with enthusiastic and generous support to fund the building of a new campus on the site of the Mission Hills Farm to house the growing college. Administration and faculty, working with other college educators around the state, began developing the new curriculum. In August 1967, students gathered for the first time on the new campus of Missouri Southern State College. The dual funding arrangement with the state continued until 1977 when on July 1 the State of Missouri officially took on the responsibility of funding the entire college. The next major milestone occurred August 28, 2003 when the college officially became Missouri Southern State University – Joplin. The Joplin reference was later dropped by legislation. With this latest change the institution took on a broader state mission and expanded its programs. Partnering with other universities in Missouri, joint graduate degree programs were offered. In August, 2014, the first cohort was begun in a stand-alone graduate program in Curriculum and Instruction. Plans for additional programs in Educational Administration and ELL are at various stages of approval. Today Missouri Southern State University remains a proud member of the state's higher education family while continuing to serve the region that is an integral part of its past and beyond. The University's primary goal is to offer a baccalaureate program that fosters the total education of each student. Central to that mission is the strong commitment to international education, to the liberal arts, to professional and pre-professional programs, and to the complementary relationship that must exist between liberal and professional education in order to prepare individuals for success in careers and lifelong learning. Inherent in its international approach to undergraduate education is the University's desire to prepare its students to understand world affairs, international issues and other cultures as seen through their history, geography, language, literature, philosophy, economics and politics. Knowledge and understanding of other cultures of the world also promote better understanding of our own valuable cultural diversity. Missouri Southern State University's commitment to the liberal arts is reflected in a comprehensive program of general education requirements for all students to ensure that they have a breadth of educational experiences which will enable them to develop communication and critical thinking skills and to acquire and apply aesthetic, contemporary, civic, international, historical, mathematical, scientific and value-oriented perspectives. The faculty and staff of Missouri Southern State University emphasize quality teaching and learning as the most important attributes of the institution, complemented by scholarly and creative expression and dedicated community service. Community service involves responsiveness to the Southwest Missouri region as well as serving as the intellectual, creative and cultural center of the area. In harmony with the University's international mission, teacher education majors have opportunities to participate in international studies directly related to their major. Student teaching experiences in Southampton, England and Tortola, BVI have been available to Teacher Education majors. Currently student teaching experiences are available in Belize during the fall semester of each academic year. Teacher Education majors also have the opportunity to participate in Comparative Education Studies culminating in on-site visits to schools in the selected countries. In implementation of this mission, all teacher education majors must complete EDUC 280, Foundations of Education in a Global Society. Missouri Southern State University is a state-supported, comprehensive university with a statewide mission in international education. Faithful to its original statutory charter, the University also offers lifelong learning courses and a number of technical and vocational areas for the benefit of the community. The statewide mission in international education is supported by curriculum enhancements, foreign language proficiency measures, themed semesters, student and faculty exchanges, study-abroad programs and numerous international seminars and conferences. Missouri Southern's commitment to the liberal arts is reflected in a comprehensive program of General Education requirements for all students to ensure that they have a breadth of educational experiences which will enable them to develop communication and critical thinking skills and to acquire and apply aesthetic, contemporary, civic, international, historical, mathematical, scientific and value perspectives. The faculty and staff of Missouri Southern State University emphasize quality teaching and learning as the most important attributes of the University, complemented by scholarly and creative expression and dedicated community service. Community service involves responsiveness to the Southwest Missouri region as well as serving as the intellectual, creative and cultural center of the area. Joplin is located in southwest Missouri in the "four states" region encompassing Oklahoma, Kansas, Missouri and Arkansas. At the edge of the Ozark Mountain region, Joplin has a current population of 50,789. The daytime population swells to 270,000 while the population within a 40-mile radius of Joplin is 400,000, making it Missouri's fourth largest metropolitan area. Joplin combines the beauty and hospitality of country living with the convenience and commerce of city vitality. The Teacher Education Department offers a total of twenty four areas of Missouri teaching certifications obtainable through completion of coursework and field experiences. These include Early Childhood, Elementary Education, Special Education, ELL, Middle School Education, Physical Education (K- 12), Art Education (K-12), Foreign Languages (K-12 Spanish and French), Music Education (K-12 Vocal & Instrumental), Secondary Education (Math, Business, English, Speech & Drama, Social Science, Biology, Chemistry, and Physics. Mission Statement of the Teacher Education Program The Missouri Southern State University Department of Teacher Education faculty and staff are dedicated to developing reflective educators for a global society. Vision Statement The MSSU Teacher Education faculty and staff are dedicated to developing competent teachers who will incorporate into their classrooms a strong foundation of knowledge and pedagogy; a lifelong love of teaching and learning; and motivation to improve practice through reflection, self-study, and professional development. It is our goal to assure that all candidates become ethical classroom practitioners, cognizant of the need to help all students meet their full learning potential. Philosophy Statement The MSSU Teacher Education faculty and staff realize we live and interact in a diverse and dynamic world. We believe that overall growth and learning is accomplished experientially, through problem solving, evaluation, and reflection. We believe that the school is a diverse, democratic community, a microcosm of the larger society, so that the process of collaboration, problem solving, and reflection, characterize best practice in education. A new teacher must possess the knowledge, skills, and dispositions to assess problems, devise solutions, test those solutions, and make appropriate education decisions to create a cyclical process that continually improves the learning environment of every student. Conceptual Framework: Teacher as a Reflective Decision Maker The conceptual framework, "Teacher as a Reflective Decision Maker," is derived from the mission and philosophy of the Missouri Southern Teacher Education Program with the purpose of developing reflective educators for a global society. Successful achievement of the program mission is linked to the teacher's ability to think critically and to formulate decisions related to the multiple roles of teaching. Knowledge, skills, and dispositions that have been gathered from research and reported effective practices from learned societies in areas such as human growth and development; cultural diversity and special needs; specialty field content, skills, technology, and methods; global issues and current events; Missouri state policies; historical, psychological, social, and philosophical foundations; learning theory; school effectiveness research; principles of effective instruction; assessment and evaluation; and clinical field experiences are the foundation of the conceptual framework that distinguishes the MSSU Teacher Education Program. "Teacher as an Educational Decision Maker" toward "Teacher as a Reflective Decision Maker" Theories on decision making in education can be traced to Dewey who stated that teachers act in an "intentional manner" rather than being guided by a "blind and impulsive manner." Authors Callahan (2002) and Kellough and Kellough (2003) identified four phases in the decision-making process to guide educators in effective practice. The authors' first two phases consists of the lesson planning process and the actual delivery/implementation of a given lesson. Although the first two phases are important and universally accepted in educational research the next segment is vital for making methodological and moral and ethical decisions related to student success (Armstrong and Savage, 2002). The third phase identified in the decision-making process consists of analysis and evaluation or a methodology of reflection. This process helps educators reconstruct past ideas to generate new concepts of knowledge in order to transform practice. The reflective process facilitates sound classroom practices based on educational research that has proven to be effective. As educators, our faculty believes that sound educational research and proven practices must guide our decision-making processes (Tomlinson, 1995; Strong-Wilson, 2006). Thus our move from identification of the "Teacher as an Educational Decision Maker" to "Teacher as a Reflective Decision Maker" embodies a process of not only the planning and delivery in the teaching process but also the critical self-examination of the decisions and alternatives. The development of candidates to plan, implement, and evaluate a lesson is an essential component in their professional training (Kellough and Kellough, 2003; Romano & Gibson, 2006). As a

faculty we believe reflection on practice is a key in making further modifications to ensure the success of all learners. Knowledge, Skills, and Dispositions of the Teacher Education Program The conceptual framework for the Teacher Education Program at MSSU is woven through four distinct, yet integrated components: (1) general education requirements, (2) professional knowledge, (3) professional skills, and (4) professional dispositions. Collectively and interdependently, the categorical components provide a core of research, content, skills, concepts, mandates, philosophies, values, and attitudes that comprise the Teacher Education Program. This conceptual framework derives credibility from research findings and best practice data. (See attached Holistic Lesson Plan and Supporting Research.) Knowledge of these theoretical and practical constructs enables the candidate to think critically and to formulate reflective decisions related to the multiple roles of teaching. (see diagram attached). The General Education Curriculum The MSSU General Education Curriculum is a coherent liberal arts sequence designed to provide relevant content, which challenges students to form higher order interdisciplinary connections from a global perspective. Global, interdisciplinary understanding is vital for communicating with people and making informed decisions that impact society and the education profession. The university accepts four intellectual skills as essential for well-educated people: (1) communicating, (2) higher-order thinking, (3) valuing, and (4) managing information. The university accepts seven broad areas of knowledge as necessary for well educated people to understand and function effectively in today's complex and changing world: (1) social and behavioral sciences, (2) humanities and fine arts, (3) mathematics, (4) life and physical sciences, (5) international cultural studies, (6) health and wellness, and (7) economics. A description of the general education curriculum is included in the current catalog in the Academic Affairs section, Baccalaureate Degree Requirements area. Specific core requirements for elementary education, early childhood education, TESOL and special education candidates appear in the current catalog in the School of Education section, Teacher Education area. Professional Knowledge The MSSU Teacher Education Program Professional Knowledge base supports the conceptual framework and includes (1) MSSU General Education and Content Knowledge, (2) Historical and Social Foundations, (3) Philosophical Foundations, (4) Psychological Foundations, (5) Human Growth and Development, (6) Learning Theories, (7) Legal Issues, and (8) School Effectiveness Research. The knowledge and understandings obtained through study of these components form the foundation for the reflective decision making required of all MSSU candidates. Professional Skills The MSSU Teacher Education Program Professional Skills component includes: (1) Clinical Field Experiences, (2) Principles of Effective Instruction, (3) Classroom Management, (4) Lesson Design and Implementation, (5) Curriculum Development (6) Assessment and Evaluation, (7) Student Outcomes and Program Evaluation, (8) Specialty Areas/Content, Skills, Technology, and Methods Skills. The skills studied, practiced, and learned during coursework in these specific areas equip the candidate with processes, strategies, techniques, approaches, and behaviors to be an effective practitioner. Professional Dispositions The MSSU Teacher Education Faculty believes that teacher candidates should exhibit certain professional dispositions in order to be effective teachers. Before revising the MSSU Teacher Education Program dispositions, the faculty studied the research on teacher dispositions, the recommendations from learned societies, and the dispositions of other teacher education programs. The rights, needs, and contributions of culturally diverse and special populations are valued within the Teacher Education Program. This moral imperative to work beyond tolerance is addressed in our Mission, the Standards of Conduct for Candidates, and the Teacher Education Diversity Proficiencies. MSSU Teacher Education has created a Professional Dispositions Assessment that has included the input of our P-12 partners and is undergoing a content validity and inter-rater reliability study. MSSU Teacher Education Outcomes for Candidates Although the graduate of the MSSU Teacher Education Program has demonstrated competency in knowledge acquisition and teaching skills performance that is consistent of a well-trained novice and has demonstrated the capability to make many of the decisions that are required of the teaching professional opportunity, experience, and longevity are required before the teacher can realize his or her potential. Therefore, the administrators, faculty, and staff in the Teacher Education Program believe that effective teaching is a vital, developmental process that evolves over time with hard work, dedication, and guidance. Effective teaching works beyond classroom environments and dynamics to include school, community, and personal development. Following graduation, the new teacher will be responsible for building on that foundation and continuing his/her teaching growth and influence. The Teacher Education Program Outcomes include teaching and learning that is conducive to fulfilling the five remaining teacher role expectations of teacher as lifelong learner, teacher as provider of service, teacher as change agent, and teacher as researcher. Each is described below. Teacher as a Practitioner Skilled decision making is at the heart of effective teaching. At MSSU five areas of decision making have been delineated and include (1) classroom management, (2) classroom culture and climate, (3) lesson design implementation, (4) curriculum development, and (5) student outcomes and program evaluations. The Teacher Education Program through coursework and field experiences provides repeated opportunities and experiences that help candidates become adept at making effective, appropriate decisions in each of the above areas. Teacher as Lifelong Learner Teachers in the future will be required to teach concepts, skills, and generalizations and to perform tasks that do not yet exist. Future teachers will have to teach this new knowledge to students who must live and prosper in a changing global community. MSSU teacher candidates are taught the importance of being lifelong learners in order to further their own preparation and knowledge base. Their role as reflective decision makers helps them to determine which of the possibilities for continued growth and development—graduate studies, professional development, professional societies are appropriate to their goals and ambitions. Teacher as Researcher While the mission for this undergraduate program is not to develop researchers, faculty encourage candidates to ask questions and consult current research and theory in order to find answers which promote learning in more effective ways. Candidates are encouraged to incorporate the two prongs of research—pure and action—to support their reflective decision making. They consult the research to see what it recommends, and then they use that information to conduct action research to find the best ways to promote optimal student outcomes in their classrooms. This element of the conceptual framework operates in tandem with the teacher as practitioner and the teacher as lifelong learner elements. Teacher as Provider of Service As teachers begin to gather expertise in one or more areas of teaching, they realize the importance of sharing that expertise with peers. MSSU candidates are informed of the various tasks and basic requirements that are necessary to be contributing members to the education profession, their school, and their community. Forms of professional service that are discussed in courses at MSSU include the ability to function as an educational consultant at various levels, as a member of school and/or community committees, as a provider of staff development programs and in-service preparation at the building and district level, and as a presenter at conferences. Teacher as Change Agent The administration, faculty, and staff of the Teacher Education Program are dedicated to the profession, its refinement, and its ethics. Because teaching is broader than mere classroom instruction, MSSU candidates are encouraged to view themselves as active forces for educational reform. Through the study of historical foundations, issues, and current trends in education, candidates learn they have a professional responsibility to make a positive impact on education and the society in which they live and work. They are encouraged to advocate for change whenever issues and conditions deem it is professionally and ethically important to do so. The MSSU Teacher Education Goals/Objectives aligned with the MoSPE standards are: Goal #1 Content knowledge and perspectives aligned with appropriate instruction. The teacher understands the central concepts, structures, and tools of inquiry of the discipline(s) and creates learning experiences that make these aspects of subject matter meaningful and engaging for all students. Goal #2 Understanding and Encouraging Student Learning, Growth and Development The teacher understands how students learn, develop and differ in their approaches to learning. The teacher provides learning opportunities that are adapted to diverse learners and support the intellectual, social, and personal development of all students. Goal #3: Implementing the Curriculum The teacher recognizes the importance of long-range planning and curriculum development. The teacher develops, implements, and evaluates curriculum based upon standards and student needs. Goal #4: Teaching for critical thinking The teacher uses a variety of instructional strategies to encourage students' critical thinking, problem solving, and performance skills including instructional resources. Goal #5: Creating a positive classroom learning environment The teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages active engagement in learning, positive social interaction, and self-motivation. Goal #6: Utilizing Effective Communication The teacher models effective verbal, nonverbal, and media communication techniques with students and parents to foster active inquiry, collaboration, and supportive interaction in the classroom. Goal #7: Use of Student Assessment Data to Analyze and Modify Instruction The teacher understands and uses formative and summative assessment strategies to assess the learner's progress, uses assessment data to plan ongoing instruction, monitors the performance of each student, and devises instruction to enable students to grow and develop. Goal #8: Professional Practice: The teacher is a reflective practitioner who continually assesses the effects of choices and actions on others. The teacher actively seeks out opportunities to grow professionally in order to improve learning for all students. Goal #9: Professional Collaboration The teacher has effective working relationships with students, parents, school colleagues, and community members. Unit's Assessment System The purpose of the Teacher Education Program Assessment System is to provide documentation of the candidate's progression through the Missouri Southern Teacher Education Program. The current assessment system was developed by the departmental assessment committee and is Committee 5, Quality Assurance with input from the Teacher Education Council and the Conceptual Framework Committee. These entities include representation from content departments at the university as well as PK-12 partners. The Teacher Education Program Assessment System is intended to provide data support in order to make systematic, data-driven decisions. Student progress is defined by the Conceptual Framework as well as institutional, state, and national standards. Since the Teacher Education Faculty Retreat in 1989, when the Teacher Education program was restructured to a competency-based system, efforts have been continuous to improve the program. The MSSU Teacher Education program assessment plan reflects unit and professional (learned society) standards and identifies how candidate performance specific to the Conceptual Framework is assessed. The assessment system provides structure for all unit assessments at the appropriate benchmarks and analysis of data by program and candidate. This disaggregation of data is essential for making pedagogical and content decisions. The conceptual framework for the Teacher Education Program at MSSU is woven through four distinct, yet integrated components: (1) general education curriculum requirements, (2) professional knowledge, (3) professional skills, and (4) professional dispositions. Collectively and interdependently, the categorical components provide a foundation of research, content, skills, concepts, mandates, philosophies, values, and attitudes that comprise the Teacher Education Program. This conceptual framework derives credibility from research findings and best practice data. Knowledge of these theoretical and practical constructs enables the candidate to think critically and to formulate reflective decisions related to the multiple roles of teaching. All general assessments collected for teacher education candidates are utilized to provide ongoing assessment of professional knowledge, skills, and dispositions articulated in the MSSU Conceptual Framework. In addition, the MSSU assessment plan documents multiple internal and external data sources that are used to guide program development and assess candidate outcomes related to expected knowledge (cognitive), skills (behaviors) and dispositions (affective). Such things as adding new courses, deleting existing courses, program admission or exit requirements, and adding new programs require review of appropriate committees. The MSSU Teacher Education faculty members realize we live and interact in a diverse and dynamic world. We believe that overall growth and learning is accomplished experientially, through problem solving, evaluation, and reflection. Like Dewey, we believe that school is a diverse, democratic community, a microcosm of larger society, so that the process of collaboration, problem solving, and reflection, characterize best practice in education. A new teacher must possess knowledge, skills, and dispositions in order to assess problems, devise solutions, test solutions, and make appropriate education decisions to create a cyclical process that continually improves the learning environment of every student. Thus, the pragmatic philosophy of John Dewey provides key support for the vision of Teacher as a Reflective Decision Maker. Furthermore, faculty members believe:

- The Teacher Education Program should sustain and promulgate high standards to achieve the goals of teacher education.
- Faculty should model quality teaching in the university classroom.
- Faculty should be agents for scholarship and change.
- Curricula and the delivery system for teacher education programs should be rooted in current research and best practice.
- Candidates need a high level of professional preparation in order to serve a diverse and dynamic society.
- Candidates need training to become reflective instructional decision makers.
- Area school systems, community agencies, and parent groups are best served by faculty through programs and information that improve the quality of educational practice in our region. Beginning in the summer of 2012, the Professional Education Unit

(PEU) moved to align the program with revised Council for the Accreditation of Educator Preparation (CAEP) and Interstate Teacher Assessment and Support Consortium (INTASC) standards. At this time, the Missouri Standards for Professional Educators (MoSPE) were accepted and integrated into the program as well. Committee structure was changed to align with the new CAEP standards and reduced from six standard committees to five. The new committees include: Committee 1, Candidate Content and Pedagogical Knowledge; Committee 2, Clinical partnerships and Practices; Committee 3, Strategic Enrollment; Committee 4, Program Impact; and Committee 5, Quality Assurance. All standard committees as well as the Conceptual Framework committee and Teacher Education Council continue to include representatives from across campus and the P-12 Community. Minutes verify participation of P-12 members. The PEU continues to operate under the Conceptual Framework, "Teacher As a Reflective Decision Maker", which includes a shared vision, mission statement, and simplification of the Conceptual Framework narrative, including Professional Knowledge, Professional Skills and Professional Dispositions.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.

Certification of submission

I certify that, to the best of my knowledge, the information in this report is accurate and complete and conforms to the definitions and instructions used in the *Higher Education Opportunity Act, Title II: Reporting Reference and User Manual*.

NAME OF RESPONSIBLE REPRESENTATIVE FOR TEACHER PREPARATION PROGRAM:

Jenifer Vieselmeyer

TITLE:

Teacher Education Coordinator

Certification of review of submission

I certify that, to the best of my knowledge, the information in this report is accurate and complete and conforms to the definitions and instructions used in the *Higher Education Opportunity Act, Title II: Reporting Reference and User Manual*.

NAME OF REVIEWER:

Susan Craig
