MSSU Teacher Education

Clinical Partnerships and Practice Handbook

for

Teacher Candidates
Cooperating Teachers
University Supervisors

2020-2021

Special Appreciation

The faculty, staff, administrators, and the Director of Clinical Field Experiences of the Teacher Education Program at Missouri Southern State University wish to express their appreciation to a very special group of educators who serve as members of the Clinical Partnerships and Practices Committee. This committee, composed of public school and university personnel, spends many hours in reviewing, evaluating and revising components of the Clinical Field Experiences Program, including the Professional Semester/student teaching experience.
P-12 Advisory Committee Public School Representatives:

Kandy Frazier, Assistant Superintendent, Carthage R-IX School District
Sarah Mwangi, Assistant Superintendent, Joplin Schools
Ronna Patterson, Principal, Fairview Elementary, Carthage R-IX
Kerry Sachetta, Assistant Superintendent, Joplin Schools
Kathy Tackett, Assistant Superintendent, Carl Junction Schools
Jason Weaver, Principal, Jefferson Elementary School, Joplin Schools
Steve Gilbreth, Principal, Joplin High School
Nathan Manley, Assistant Superintendent, Neosho Schools
Angie Brewer, Assistant Superintendent, McDonald County Schools
Mandy Barrett, Principal, Upper Elementary School, Gravette Schools
Brentyn Byrd, Assistant Superintendent, Webb City Schools

MSSU Teacher Education Program Representatives:

Lorinda Hackett, Interim Dean, School of Education, MSSU
Susan Craig, Department Chair, Teacher Education Department, MSSU
Jeni Vieselmeyer, Coordinator for Teacher Education, MSSU
Suzanne Hull, Director, Clinical Field Experiences, MSSU

A Message from the Dean

Dear Teacher Candidate:

The School of Education is resolute in its efforts to provide field experiences that address the challenge of developing effective teachers. Experiential learning is the fulcrum of the teacher preparation lever at Missouri Southern State University. Teacher candidates, your challenge is to take full advantage of the authentic opportunities afforded in the required field experiences. It is your responsibility to sustain an effortful application of the knowledge, skills, and dispositions necessary for effective teaching. A full measure of your energy, time, and commitment is required as the crafting of your professional identity begins. We are appreciative of the valuable roles of the Cooperating Teachers and University Supervisors as they support experiential learning through descriptive feedback in authentic learning environments to assist teacher candidates as they hone their skills. Respect for the profession and belief in collaboration adds limitless value to these partnerships whereby your cooperative work maximizes learning for all students.

Lorinda Hackett
Interim Dean, School of Education

It is teachers who have created positive teacher-student relationships that are more likely to have the above average
Definition of Terms
*May not apply to all clinical experiences

Clinical Experience: A period of guided or supervised teaching during which the university student takes increasing responsibility for a given group of learners over the course of the program. Due to time limitations, it cannot duplicate all experiences of first year teachers, but is a transitional experience aimed at developing initial teaching competence.

Cooperating Teacher: A public or private school teacher who mentors a practicum teacher candidate and holds credentials in their area of certification.

Co-Teaching: Multiple teachers, including teacher candidates, working together with groups of students to share the responsibilities of planning, organization, lesson delivery and assessment throughout an instructional time period.

Director of Clinical Field Experiences: MSSU representative responsible for placement, direction and coordination of the clinical and field-based experiences.

Missouri’s Educator Evaluation System (MEES): The assessment/evaluation system aligned with the Missouri Teacher Standards and Quality Indicators.

Junior Internship: The mid-level academic semester for teacher education candidates, consisting of a 32+13-hour clinical experience in area(s) of the candidate’s initial certification. Teacher Candidates may not be placed in the same District for JI and the Professional Semester.

Out of Area Placement: Teacher Candidates may apply to student teach outside of the preferred 60-mile radius from MSSU. Candidates must complete an Out-of-Area application process, including a financial agreement, in order to be considered for placement.

Professional Semester: The culminating academic semester for a Teacher Candidate as a Student Teacher, consisting of a continual 16-week teaching placement at the level of the candidate’s initial certification.

Teacher Candidate or Pre-Service Teacher: A university student who is an education major in MSSU’s Teacher Education Program.

University Supervisor: The university faculty member/adjunct professor assigned to a student teaching candidate for supervisory purposes during their professional semester.
Philosophy and Objectives of Clinical Field Experiences

Philosophy: Clinical field experiences at Missouri Southern State University (MSSU) are designed to be authentic experiences, providing opportunities for teacher candidates to practice and refine their knowledge and skills under the guidance of exceptional cooperating teachers. These experiences connect research and theory-based instruction in the world of pedagogical decision-making.

Objectives:

- The teacher candidate understands the central concepts, structures and tools of inquiry in their discipline(s) and creates learning experiences that make these aspects of subject matter meaningful and engaging for all learners.
- The teacher candidate understands how students learn, develop and differ in their approaches to learning. The teacher provides learning opportunities that are adapted to support the intellectual, social and emotional development of all learners.
- The teacher candidate recognizes the importance of long-range planning and curriculum development and assumes the responsibility of developing, implementing and evaluating curriculum based upon student, district and state standards data.
- The teacher candidate uses a variety of instructional strategies and resources to encourage critical thinking, problem solving and achievement in all types of learners.
- The teacher candidate uses an understanding of motivation and behavior to create a learning environment that encourages active learning engagement, positive social interactions and self-directed learning.
- The teacher candidate effectively utilizes verbal, nonverbal and media communication techniques with students, colleagues and families to foster active inquiry, collaboration, and supportive interaction.
- The teacher candidate appropriately uses formative and summative assessment strategies to evaluate learner progress, as well as utilizes standardized assessment data to monitor the progress of each student and plan instruction.
- The teacher candidate is a reflective practitioner who continually assesses the effects of choices and actions on others. The teacher actively pursues opportunities to grow professionally in order to improve learning for all students.
- The teacher candidate has effective working relationships with students, parents, school colleagues and community members.
- The teacher candidate demonstrates professional demeanor; including professional attire, time management, language, and interactions.

Clinical Field Experience Policies

Calendar and Vacations: The professional semester begins the first day the district requires teachers to attend. The semester ends the Friday before MSSU graduation. Candidates will adhere to the district calendar. MSSU scheduled holidays are not observed by candidates during the Professional Semester.

Change of Assignment and Termination: Field and clinical experiences may be terminated by the school district and/or the educator preparation program. Documentation, including TCFAs and Professional Conduct Form(s), must be provided to validate any change in placement status. The teacher candidate should be given a thorough explanation and opportunity to share their perspective on the situation(s). Also provided, should be documentation detailing the attempts made by the Cooperating Teacher and University Supervisor to provide intervention strategies to promote candidate success. Depending upon the severity of the incident, the educator preparation program may not be obligated to find another placement for the candidate. Candidates not replaced early in the semester are at risk to repeat Student Teaching according to DESE certification standards.

Disability Accommodation in Clinical Field Experiences: Clinical field experiences occur in a PK-12 school setting appropriate to the certification grade level and area that each teacher candidate pursues. Placement parameters fall under the regulations prescribed by the Missouri Department of Elementary and Secondary Education (DESE) and part of the memorandum of understanding signed by Missouri Southern and each cooperating school district. These educational experiences occur in a place of work, where the student is still learning but is expected to achieve a professional standard by the conclusion of the educational experience. Clinical field experiences, such as Student Teaching, are applied learning experiences that are, in effect, a practice job. However, the teacher candidate is NOT employed by the cooperating school district.

Clinical field experiences are performance-based experiences. The Missouri Education Evaluation System for Teacher Candidates (MEES) reflects the Missouri Teacher Standards and is used in a variety of capacities to assess teacher candidate performance. The MEES utilizes all nine Missouri Teacher Standards when evaluating success for completion of student teaching. This instrument will also be used to provide feedback throughout clinical field experiences so that the student has a clear picture of where their performance is in regard to the required standard throughout the experience. The MEES must be met for graduation and teacher certification.

Any teacher candidate who believes he/she has a disability that requires a reasonable accommodation to successfully complete a clinical field experience to the MEES standards
should apprise the Disability Services Department in advance of the school placement planning process to consider and assess any reasonable accommodations. The ensuing meeting should include a discussion of any reasonable accommodations that may need to be arranged in advance of school placement, any health or safety concerns, confidentiality concerns and consideration of a decision regarding disclosure options as part of the school placement planning process. Student safety and well being is the highest priority in school placement settings. The decision to disclose is often best made voluntarily after consideration of all circumstances. Where there is a legal obligation to make known the potential for risk or harm in a school placement setting, disclosure may be necessary.

Assurance of the implementation of reasonable accommodations is enhanced by contacting the Disabilities Services Coordinator as early as possible. Note that, though accommodations may be requested at any time, accommodations cannot be granted retroactively. If accommodations are not requested and professional standards are unmet, accommodations will not be considered in evaluating candidate performance. Accommodation requests are considered on an individual basis. Typically, clinical field experience accommodations, such as time extensions, note taking, and separate testing space do not apply to the applied learning (practice job) setting (i.e., the teacher candidate must complete the work expected of a teacher on time – there are no time extensions in the daily work of a teacher so requests for extended time will, generally, not be applicable.) If it is determined that the granting of a requested accommodation will result in the lowering of required standards or changes the essential nature of the applied learning experience, alternative reasonable accommodations may be considered or suggested if appropriate. Determinations on requested accommodations will be made by Missouri Southern State University and not the receiving school district. All teacher candidates will be evaluated by the MEES regardless of whether a reasonable accommodation has been granted.

In order to protect student confidentiality, accommodation information is not typically shared with the receiving school district. Certain accommodations may require the assistance or cooperation of the receiving school district (such as a special piece of equipment, desk/chair modifications, or if an additional person needs to be present in the classroom, such as an interpreter). In these instances the school district may receive the information necessary to provide the student’s reasonable accommodation.

**Dress:** Teacher candidates will follow the standards and policies of the district. Success throughout Clinical Field Experiences relies, in part, on projecting a professional image. *Remember, every day is an interview.*

**Field Experience Concerns and Chain of Command:** If candidate concerns arise for which the Cooperating Teacher feels the attention of the Teacher Education Program is required, he/she may communicate with the University Supervisor via phone or through a requested site
visitation. At this time, a MSSU *Professional Conduct Form* is completed by the University Supervisor and submitted to the Director of Clinical Field Experiences. A PCF should be submitted for each concerning event, should they continue. Cooperating Teachers are highly encouraged to convey overall concerns (including absences) early in the candidate’s clinical experience and report concerning events immediately.

Candidates experiencing difficulties should pursue the following chain of command for help and resolution:

- Cooperating Teacher
- Course Instructor/University Supervisor (Professional Semester Only)
- Director of Clinical Field Experiences
- Department Chair
- Admissions & Retention Committee
- Dean of the School of Education
- MSSU Campus Student Grievance Policy

**Information Confidentiality:** It is an expectation that candidates understand and remain cognizant that confidential student information is protected by law and should be handled with respect and discernment. Candidates should only share pertinent information to appropriate personnel at their assigned placement.

**Out of Area Placement:** Teacher Candidates may apply to be placed in Junior Internship or Student Teaching outside of the preferred 60-mile radius from MSSU. Student Teaching Candidates must complete the Out-of-Area application process in order to be considered for placement.

**Transportation:** Candidates must provide their own transportation to and from their cooperating school for daily attendance and required school/district events.
Professional Semester

Professional Semester Teacher Candidate Responsibilities

The role of the candidate, in addition to accepting the teaching duties and responsibilities with the classroom, includes the genuine effort to establish a warm, accepting and caring relationship with the assigned students. It is imperative the candidate establishes firm control of the classroom through the development of mutual understanding and respect. It is suggested that the scheduled periods of formal observation and evaluation be used as checkpoints for teaching growth and as a means for setting both long and short-term goals for continued development.

Before the semester begins:

- Make contact with your cooperating teacher by sending them an autobiography via email and set a date and time to meet.
- Request a school/district handbook outlining dress code, the faculty calendar, staff contact information, etc.
- Address building “housekeeping” items such as parking, visitor identification procedures, arrival/dismissal times, etc.
- Address classroom “housekeeping” items such as class schedule, extra assigned duties, textbooks, class size, classroom management plan, etc.
- Attend the Professional Semester Orientation held at MSSU.

During the semester:

- Learn the emergency procedures and other classroom/building routines.
- Learn and live by the host school’s rules, policies and standards-you are a guest in the building.
- Be cognizant that confidential information is protected by law and should be handled with respect and discernment.
- Maintain a mature, professional attitude and appearance, as outlined in the Professional Interactions Agreement.
- Participate in ALL activities expected of the cooperating teacher. Conform to arrival and departure times, extra duties, events, meetings and conferences, etc. Follow the building/district calendar.
- Participate in co-planning and co-teaching lessons-make lesson plans.
- Demonstrate initiative and assume all classroom duties.
- Self-evaluate daily and accept criticism and suggestions to assist you in your professional growth.
- Participate in formal evaluations by your cooperating teacher and university supervisor(s). Submit the MSSU lesson plan at least a day ahead to the evaluator. Participate in a pre-conference, formal observation, and a post-conference.

16
Specific MSSU responsibilities:

- Attend the scheduled *Seminars*.
- Provide the Cooperating Teacher with a candidate autobiography *prior* to meeting.
- Administer a student survey upon beginning Student Teaching placement.
- Submit all required assignments and documents *by their assigned due date*.
- Create a lesson plan of your choice (MSSU short lesson plan, district lesson plan, etc.) *for EVERY* lesson taught; however, the formal MSSU lesson plan *must* be used for scheduled evaluations by your cooperating teacher or supervisor(s).
- Pass all DESE required tasks for certification. *Passing MEES scores is a graduation requirement for MSSU.*
- Complete MSSU graduation requirements. *Passing the MoCA is a graduation requirement.*
- Submit *Teacher Education Clinical Experience Attendance Forms*

The P-12 Advisory Committee recommends the use of the Co-Teaching Model. Co-Teaching is defined as working together with groups of students to share the responsibilities of planning, organization, lesson delivery and assessment throughout an instructional time period.

To appropriately model co-teaching, the following *suggested* phases are recommended. Candidates who need more time and support before moving into the next phase may require extra coaching and support from the University Supervisor.

Phase 1 - Focus: Team Planning. The cooperating teacher takes the lead role for instruction and assessment. The role of the teacher candidate is supportive instruction, learning the school and classroom procedures and learning about the students. **Weeks 1-2.**

Phase 2 – Focus: Co-Teaching with Team Planning, Continued. During this period of time the candidate should assume responsibility for one subject/class at a time until the candidate has assumed the lead role in planning, teaching and assessment for all subjects/classes. **Weeks 3-4.**

Phase 3 – Focus: Co-Teaching with Team Planning, Advanced. The teacher candidate assumes the lead role for planning, instruction and assessment. The cooperating teacher is encouraged to provide much constructive criticism and positive reinforcement. During this time, the cooperating teacher may wish to leave the classroom (as appropriate) to allow the candidate the opportunity to make and evaluate the results of his/her instructional decisions. **Weeks 5-15.**

Phase 4 – Focus: Co-Teaching with Team Planning, Reduced. During this time, the cooperating teacher should gradually begin to reassume the lead teaching responsibilities. Teacher
Candidates are encouraged to observe other teachers during the final placement week. **Weeks 15-16.**

**Professional Semester Cooperating Teacher Responsibilities**

The role of the cooperating teacher is paramount. The cooperating teacher provides the continual guidance, coaching, modeling, conferencing and encouragement necessary for candidate preparation and professional growth.

**Before the semester begins:**
- Collect any needed textbooks, curriculum guides, etc. for the candidate to use.
- Provide the candidate with a work area in the classroom.
- Familiarize the candidate with the building facilities, school personnel, parking, check-in/check-out procedures, etc.
- Provide a faculty handbook and review the items that directly affect the teacher candidate.
- Provide the candidate generalized knowledge about the classroom expectations, student contextual factors and personal teaching philosophies.
- Attend the *Professional Semester Orientation* held at MSSU.

**During the semester:**
- Train the candidate in recordkeeping procedures, such as reporting attendance, preparing report cards, entering grades and maintaining cumulative records.
- Provide daily informal feedback with examples to incorporate the next day.
- Select co-teaching strategies to implement in daily lessons.
- Communicate with the University Supervisor concerning the progress of the candidate. If at any time there are immediate concerns, the University Supervisor is your first point of contact. It is highly recommended that all concerns, regardless of severity, are conveyed early in the clinical experience.
- **Provide the university supervisor with a copy of each completed evaluation. The university supervisor will submit all evaluations.**
- Participate in the *Missouri Educator Evaluation System* (MEES) to complete four (4) *Teacher Candidate Formative Assessments* (TCFA) total, plus one (1) *Teacher Candidate Summative Assessment* (TCSA) form, plus one (1) *Professional Dispositions Profile* (PDP) form in which the Cooperating Teacher will use the PDP rubric to score. A summative MEES score of at least 42 (combined CT and US scores) is required to pass the professional semester.
- The schedule for completion and submission is provided below. Each formal observation requires a pre-conference, observation and post-conference. The post conference must take place **within 3 working days**. A copy of each evaluation is provided to the candidate. Forms and information are provided in Appendices on the MSSU Teacher Education website.

Professional Semester University Supervisor Responsibilities

University Supervisors complete the triad of support for the Student Teaching Candidate and Cooperating Teacher in the realization of a common goal – the successful completion of the clinical field experience. Potential problems and/or candidate concerns conveyed by the Cooperating Teacher and/or the University Supervisor should be addressed immediately, constructively and professionally.

Before the semester begins:
- Attend the Professional Semester Orientation held at MSSU as an introductory “visit”.
- Visit the school and candidate early in the semester.
- Tentatively schedule your face-to-face formal observations with the candidate. Not all observations must be scheduled ahead of time.
- Clarify the expectations for the clinical experience.

During the semester:
- Missouri Standards for the Preparation of Educators (MoSPE) requires weekly contact. This can be face-to-face, email, phone, etc.
- Assist the candidate in self-evaluation/goal setting for professional growth.
- Communicate with the Cooperating Teacher concerning the progress of the candidate. Candidate concerns received from the Cooperating Teacher should be conveyed to the Director of Clinical Field Experiences as early as possible using the Professional Conduct Form provided in Appendix I.
Provide the Cooperating Teacher with a copy of each completed evaluation.

- Participate in the Missouri Educator Evaluation System (MEES) to complete four (4) Teacher Candidate Formative Assessments (TCFA) total, plus one (1) Teacher Candidate Summative Assessment (TCSA) form, plus one (1) Professional Dispositions Profile (PDP) form in which you will use the PDP rubric to score. A summative MEES score of at least 42 (combined CT and US scores) is required to pass the professional semester.

- The schedule for completion and submission is provided below. Each formal observation requires a pre-conference, observation and post-conference. The post conference must take place within 3 working days. A copy of each evaluation is provided to the candidate. Forms and information are provided in Appendices on MSSU Teacher Education website.

The University Supervisor is responsible for submitting all evaluations, including the Cooperating Teacher evaluations, electronically to: clinicalexperienceforms@mssu.edu

---

**Education is not the learning of facts, but the training of the mind to think.**

- Albert Einstein
Professional Semester Policies

Attendance: The MSSU Professional Semester attendance contract (see Appendix) is read and signed by members of the triad. **ALL absences must be recorded on the Teacher Education Clinical Experience Attendance form AND be reported to the Cooperating Teacher and University Supervisor(s).** Extended absenteeism may result in an extended Professional Semester/Student Teaching placement. The Cooperating Teacher should report excessive candidate absences to the University Supervisor upon the 3rd absence.

Coursework other than Seminar: Students may not be enrolled in any other courses during the professional semester. All other required courses must be completed before the first day of the Professional Semester.

Midterm and Final Grades: Candidates will receive a grade of credit or non-credit from MSSU for completion of their Student Teaching field experience. Credit will be awarded at the end of the semester once all required evaluation forms are submitted by the Cooperating Teacher and University Supervisor. **A summative MEES score of at least 42 (combined CT and US scores) is required to pass the professional semester.** Midterm grades are assigned as credit or non-credit in regard to the submission of a TCFA 1 and the PDP submitted by both the Cooperating Teacher and University Supervisor.

Missouri Certification: Completion of the Teacher Education Program and the Professional Student Teaching Semester does not automatically license and certify the graduate. Information regarding the formal application for certification will be provided during the final seminar. The Missouri Department of Elementary and Secondary Education requires a passing score on the content assessment (MOCA) and the performance assessment (MEES) to be eligible to be recommended for certification in the State of Missouri. Missouri Certification is required for certification in other states.

Professional Improvement Plan: Teacher Candidates who earn **a combined score of 18 or less on the TCFA 1** will have a scheduled intervention meeting with the Cooperating Teacher and University Supervisor within one week of the evaluation. **Teacher Candidates who earn a combined score of 25 or less on TCFA 2 will be required to have an improvement plan in place within one week of the evaluation.** The University Supervisor and the Cooperating Teacher will collaborate with the Teacher Candidate to identify the areas for improvement and create an implementation schedule for the improvement plan. Teacher Candidates who continue to perform below the necessary level to be recommended for certification in the State of Missouri may be referred to the Admission and Retention Committee following their TCFA 3.
**Seminar:** All candidates are required to attend as part of the course requirements. Seminars provide clarification and completion of requirements, as well as address topical issues in education. See course syllabus, attendance policy, and schedule.

**Student Teaching Summative Evaluation:** A Summative MEES evaluation will be completed by both the Cooperating Teacher and the University Supervisor. At this time, the Cooperating Teacher and University Supervisor will collaborate in-person or virtually to discuss final scoring. The Cooperating Teacher and University Supervisor will individually submit a Summative MEES score electronically. **A summative MEES score of at least 42 (combined CT and US scores) is required to pass the professional semester.**

**Substitute Teaching:** Teacher Candidates will be eligible to receive pay as a contracted Substitute Teacher who have met the following requirements:

- Submission of the TCFA 1 scores by the Cooperating Teacher and University Supervisor
- Teacher Candidate is formally approved to Substitute Teach by the Cooperating Teacher and University Supervisor based on the Teacher Candidate’s readiness based on TCFA 1 scores and capabilities
  - MSSU Clinical Field Director notified by University Supervisor when Teacher Candidate is approved to serve as a Substitute Teacher
- Teacher Candidate may serve as a Substitute Teacher up to five (5) days with pay only within the building and certification area of their student teaching assignment
  - Districts will determine eligibility for substitute teacher pay based on local district policy and the Fair Labor Standards

**Supervision and Evaluation of Teacher Candidates:** MSSU Teacher Education Program is required by the Missouri Department of Elementary and Secondary Education to use the Missouri Educator Evaluation System (MEES) for Teacher Candidates. Training is also required for both Cooperating Teachers and University Supervisors by the Missouri Department of Elementary and Secondary Education in order to understand and demonstrate the ability to evaluate the candidates using the performance-based system of continuous improvement. **The most critical component is providing feedback to the candidate in a manner that promotes growth.** Teacher Candidates are required to meet the minimum passing score of the MEES in order to be recommended to DESE by MSSU for certification in the State of Missouri. A summative MEES score of at least 42 (combined CT and US scores) is required to pass the professional semester. The results of the evaluations will be included in the candidate’s student file, as well as the aggregate on the Annual Performance Report for Educator Preparation Programs. Supervisors may conduct “impromptu” visits, however, scheduled formal evaluations must be scheduled in advance so candidates and cooperating teachers may be adequately prepared.

**Work and Extracurricular Activities:** As the responsibilities of full-time teaching can be time-consuming and require a great emotional investment, students are strongly urged not to be
employed during the Professional Semester. Student teaching is very demanding and must be given first priority.
Appendix A: MSSU Formal Lesson Plan
*For formal evaluations and/or daily use

https://drive.google.com/file/d/1_VeYSnH6eAdMur7vWIWJmcbUHkntKicS/view?usp=sharing
Appendix B: Co-Teaching

Co-Teaching is defined as two or more teachers (Cooperating Teacher and Teacher Candidate) working together with groups of students-sharing the planning, organization, delivery and assessment of instruction, as well as the physical space of the classroom.

Co-Teaching and Traditional Student Teaching

Procedures that will stay the same...

✓ Solo teaching time
✓ Placement procedures
✓ One teacher candidate per classroom
✓ Total time in the classroom
✓ Evaluation Forms
✓ Individual lesson planning

Procedures that will be different...

✓ Support and training
✓ Co-planning required (at least 1 hour a week)
✓ Enhanced collaboration and communication
✓ Focus on differentiation
✓ Increased opportunities for teacher candidate to offer ideas
✓ Engagement in professional development

Important Points to Remember

❖ Planning is VERY important. Use planning time wisely, focusing on lessons to be co-taught. Prioritize and don’t allow outside distractions to take over.
❖ The goal is to have the Cooperating Teacher and Teacher Candidate actively engaged with students as much as possible. However, EVERY teacher candidate DOES need time to manage the classroom on their own.
❖ Full time responsibility means the teacher candidate leads all aspects of the classroom, including how the Cooperating Teacher and other adults will be involved.
❖ Even if the first evaluation occurs while the majority of subjects are still being co-taught, all evaluations must reflect the candidate’s ability only. In order to achieve a valid evaluation, observed lessons should be conducted by the candidate only.
❖ It is the decision of the cooperating teacher to remain in the room during observations.
Encourage the attitude, “We’re both TEACHING!”

Welcoming Your Teacher Candidate

• Arrange to meet with your teacher candidate before the official start of the experience. Spend time learning about one another as people, not just as educators.
• Introduce the teacher candidate to other faculty members, support personnel and administrators.
• Tour the school. This includes staff work areas, the lounge, adult restrooms, etc.
• Post the teacher candidate’s name (Mr./Ms. Smith) along with your name near the classroom door.
• Send a note to families to let them know you will have a teacher candidate co-teaching with you.
• Provide a desk (preferably not a student-size desk) or designate a work area for the teacher candidate with supplies and copies of necessary manuals, textbooks, the current read-aloud book, etc.
• Provide a picture of the class or individual students to help the teacher candidate learn names quickly.
• Review items in the faculty handbook that directly affect the teacher candidate: the contractual day, issues related to school security, etc.
• Share that “bit of information” that matters: “There is a ‘Peanut Free’ table in the cafeteria” or “Staff members never park in Lot A.”
• Explain any staff activities or special events outside of school hours the teacher candidate could choose to participate in or attend.
• Discuss classroom rules and expectations for student behavior as well as acceptable rewards and consequences. Review the student handbook.
• Assemble a binder with useful information including class lists, daily schedules, classroom rules, discipline referral forms, etc.
• On a desk-top calendar or planner, mark important dates for faculty meetings, your week for hall duty, school-wide music programs, etc.
• Start a file with your favorite tried-and-true activities and good teaching ideas. Encourage your candidate to add to it throughout the experience.
• Leave an inspirational quote or article related to teaching on the candidate’s desk that might spark an interesting discussion.
• Gestures of kindness, no matter how small, have a positive impact.
• If your teacher candidate will start later in the school year, send an email or letter from the class a few weeks before to share information about current units, upcoming special events, etc.
Planning Tips

**Before your planning session:**

- ✓ Decide what lesson(s) you will use your hour of planning time for.
- ✓ Who will lead the planning time or will parts be shared? Usually, the cooperating teacher will lead in the beginning of the semester and the teacher candidate will take over as the semester progresses.
- ✓ Decide the materials that you will need and don’t take on too much.
- ✓ Bring ideas for modifications and accommodations.
- ✓ Bring ideas for enrichment activities.
- ✓ When the teacher candidate is ready to take over a subject/or period, let him/her know ahead of time that they will be leading the planning time for that lesson. They should preview what they will be teaching and come to the planning time prepared with ideas and lessons where co-teaching could occur.

**During co-planning (remember this time is to plan for co-teaching):**

- ✓ Spend a few minutes communicating about questions or issues.
- ✓ Share what will be co-taught and ideas from curriculum.
- ✓ When will you co-teach? When will each of you teach solo?
- ✓ What co-teaching strategies will best meet the needs of the students?
- ✓ Eventually, try to incorporate all of the co-teaching strategies.
- ✓ Outline questions to be used for parallel, station, etc.
- ✓ Discuss a variety of assessment strategies.
- ✓ What do each of you need to do when you leave the planning session (tasks, gathering resources, copying, etc)?
- ✓ What, if any, changes do you need to make to the layout or organization of the classroom.

**After co-planning:**

- ✓ Teacher candidate writes up lesson plans for each lesson where they have a teaching role.
## Co-Teaching Strategies & Examples

<table>
<thead>
<tr>
<th>Strategy</th>
<th>Definition/Example</th>
</tr>
</thead>
</table>
| One Teach, One Observe  | One teacher has primary responsibility while the other gathers specific observational information on students or the (instructing) teacher. The key to this strategy is to focus the observation – where the teacher doing the observation is observing specific behaviors.  
**Example:** One teacher can observe students for their understanding of directions while the other leads. |
| One Teach, One Assist    | An extension of One Teach, One Observe. One teacher has primary instructional responsibility while the other assists students with their work, monitors behaviors or corrects assignments.  
**Example:** While one teacher has the instructional lead, the person assisting can be the “voice” for the students when they don’t understand or are having difficulties. |
| Station Teaching        | The co-teaching pair divides the instructional content into parts – Each teacher instructs one of the groups, groups then rotate or spend a designated amount of time at each station – often an independent station will be used along with the teacher led stations.  
**Example:** One teacher might lead a station where the students play a money math game and the other teacher could have a mock store where the students purchase items and make change. |
| Parallel Teaching       | Each teacher instructs half the students. The two teachers are addressing the same instructional material and presenting the material using the same teaching strategy. The greatest benefit to this approach is the reduction of student to teacher ratio.  
**Example:** Both teachers are leading a question and answer discussion on specific current events and the impact they have on our economy. |
| Supplemental Teaching   | This strategy allows one teacher to work with students at their expected grade level, while the other teacher works with those students who need the information and/or materials retaught, extended or remediated.  
**Example:** One teacher may work with students who need reteaching of a concept while the other teacher works with the rest of the students on enrichment. |
| Alternative/Differentiated | Alternative teaching strategies provide two different approaches to teaching the same information. The learning outcome is the same for all students however the avenue for getting there is different.  
**Example:** One instructor may lead a group in predicting prior to reading by looking at the cover of the book and the illustrations, etc. The other instructor accomplishes the same outcome but with his/her group, the students predict by connecting the items pulled out of the bag with the story. |
| Team Teaching           | Well planned, team taught lessons, exhibit an invisible flow of instruction with no prescribed division of authority. Using a team teaching strategy, both teachers are actively involved in the lesson. From a student’s perspective, there is no clearly defined leader – as both teachers share the instruction, are free to interject information and available to assist students and answer questions.  
**Example:** Both instructors can share the reading of a story or text so that the students are hearing two voices. |
Co-Teaching Myths/Realities

Myth #1 – Co-teaching means having two teacher candidates in a classroom.

REALITY: Only one Teacher Candidate is in a classroom. The co-teaching occurs between the Cooperating Teacher and the Teacher Candidate.

Myth #2 – Teacher candidates must be left on their own to sink or swim.

REALITY: Teacher Candidates in co-teaching settings are supported in their efforts to becoming a licensed professional. The Cooperating Teacher models and assists as the teacher candidate acquires the knowledge and skills of teaching. This is in sharp contrast to the sink or swim model that assumes the teacher candidate must learn how to become a teacher on their own.

Myth #3 – Co-teaching inhibits a teacher candidate’s ability to develop classroom management skills.

REALITY: Rather than having to manage a classroom all alone, a teacher candidate has the support necessary to implement effective classroom management strategies. As the skills are gained, the teacher candidate takes the lead to make sure he/she can manage the classroom without support.

Myth #4 – Teacher candidates don’t get enough solo teaching time with co-teaching.

REALITY: Teacher candidates must have opportunities to teach all alone. The amount of time a candidate is left totally alone varies and is based on their skills in managing a classroom. It is important that the teacher candidate demonstrate that they can handle a classroom all by themselves.

Myth #5 – It takes too much time to co-plan.

REALITY: It may take more time to co-plan in the early stages of co-teaching. In order to co-teach effectively, the Cooperating Teacher and Teacher Candidate must have shared planning time. However, the benefits of co-planning are huge. Teacher candidates get a much deeper understanding of the entire curriculum through co-planning and co-taught lessons lead to increased academic performance of P-12 students making the time spent in planning beneficial for all.

Myth #6 – Teacher Candidates will never have full responsibility of the classroom.

REALITY: For a period of time, each Teacher Candidate will lead the planning, organization, delivery and assessment of instruction in a co-taught classroom. Candidates will also be responsible for directing other adults, including the Cooperating Teacher, thus learning the skills necessary for effectively managing the human resources in a classroom.

Myth #7 – Co-teaching is not the “real world”. When a teacher candidate becomes certified they will be alone in the classroom.

REALITY: To accommodate large class sizes, students with special needs, English Language Learners and the push in model of title one and special education, today’s classrooms will often have Special Education teachers, Paraprofessionals and volunteers working alongside the classroom teacher. It is rare to find a classroom where the assigned teacher is working solo. The need to collaborate with other adults in the classroom is a necessity in our schools.

Myth #8 - Co-Teaching doesn’t work at the secondary level.
REALITY: Co-teaching strategies have been used successfully at all grade levels and in every content area. Co-teaching can be especially effective at the secondary level as teachers are dealing with larger class sizes and greater diversity of students.

Myth #9 – Teacher candidates don’t have to write lesson plans for co-teaching because they co-plan.

REALITY: Co-planning takes place before formal lesson plans are written. Once a Cooperating Teacher and a Teacher Candidate co-plan, the candidate takes the information to write lesson plans, which will be reviewed by the Cooperating Teacher.

Myth #10 - Co-teaching can only work if the Teacher Candidate and Cooperating Teacher have the same learning or teaching style.

REALITY: No two people have the same style because we are uniquely different. Teacher Candidates entering the workplace must be able to work with a variety of learning and teaching styles. Through workshops, Teacher Candidates and Cooperating Teachers are made aware of many different types of learning and teaching styles, how they work and how to work together with individuals who have different styles.

Myth #11 - The University Supervisor should only observe a Teacher Candidate when they are teaching solo.

REALITY: When a supervisor observes a Teacher Candidate co-teaching with a Cooperating Teacher, they focus the observation on what the candidate is doing. If the candidate is leading a small group, it may be helpful to move closer to that group to observe him/her. If the Teacher Candidate is teaming with his/her Cooperating Teacher, focus the observation on the candidate's teaching skills, ability to collaborate with the Cooperating Teacher, management skills, organization, etc.
