## Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- » [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [§209\(b\)\(1\)\(H\)](#)

### What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completion activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/data/cip/codeTable.aspx?c=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [§209\(b\)\(1\)\(H\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education-Chemistry" category.

### What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

- Yes  
 No

 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Training is provided to prospective teachers responds to the identified needs of the local educational agencies or states where the institution's graduates are likely to teach, based on past hiring and recruitment trends. Meetings are held quarterly with our PK-12 partners and Campus partners to review data, discuss district needs and gather feedback for continual improvement. Practica for all education candidates in Education 100(Freshman level) with 8 hour practicum in selected local school districts identified with diverse populations (students see numerous teachers, grade levels, subject areas, and districts). Education 280(Sophomore level) with 30 hour practicum in selected local school districts identified with diverse populations(students see numerous teachers, grade levels, subject areas, and districts). EDUC 329/423 (Junior level, admission to Teacher Ed program) with 45 hour practicum where candidates are placed in a district with a Cooperating Teacher meeting requirements by DESE for subject and grade level of our candidate and EDUC 432(Student Teaching) with a 16 week practicum placement in school district of candidate choice with Cooperating Teacher who meets requirements by DESE for subject and grade level of candidate. Prospective teachers participate in Student Teaching Seminars that address Critical Issues such as diversity, legal and ethical issues, differentiated instruction, and current issues related to the experiences of the prospective teachers in the field utilizing our PK-12 partnerships.

**Annual Goals: Mathematics**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[§205\(a\)\(1\)\(A\)\(ii\), §205\(a\)\(1\)\(A\)\(iii\), §206\(a\)](#)

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTT's Title II Support Center and your testing company representative.

### Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing "yes" indicates that your teacher preparation program would be able to provide evidence upon request. [\(2020-21\) \(2\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- Yes  
 No

b. use technology effectively to collect data to improve teaching and learning

- Yes  
 No

c. use technology effectively to manage data to improve teaching and learning

- Yes  
 No

d. use technology effectively to analyze data to improve teaching and learning

- Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The MSSU Teacher Education Program considers technology a very important component of professional and pedagogical knowledge and skills. All methods courses require candidates to demonstrate that they can effectively integrate technology into lesson plans. The MSSU Lesson Plan requires candidates to document use of technology in each lesson plan. Content and structure of the junior block component (EDUC 432, EDUC 321 and EDUC 423); Educ 321 – Microteaching (1 hrs. cr.); A required part of Education 329. Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline. Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.) Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Microteaching provides an opportunity to practice methods and techniques for teaching. Thirty-two hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications. Educ 423 - Classroom Management (3 hrs. cr.); Classroom Management introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring. Thirteen hours of junior internship in the elementary, middle, and secondary school classroom provides opportunities to refine theory into practical applications for classroom management utilizing a log created through partnerships with K-12 partners. In order to document that MSSU teacher candidates accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students, the department uses the Teacher Candidate Formative Assessment and Teacher Candidate Summative Assessment produce by the Missouri Department of Elementary and Secondary Education. Faculty incorporated the nine MoSPE Standards into the design of the MSSU Teacher Candidate Assessments. The MSSU Rubric is divided into nine sections aligned with the nine MoSPE Teacher standards and components of the Missouri Educator Evaluation System: I. Content Knowledge, II. Student Learning Growth and Development, III. Curriculum Implementation, IV. Critical Thinking, V. Positive Classroom Environment, VI. Effective Communication, VII. Student Assessment and Data Analysis, VIII. Professionalism, and IX. Professional Collaboration. The MEES is standards-based instructional sequence; employ decision-making processes that continuously search for the most appropriate fit among the various aspects of instructional context, subject matter knowledge, and repertoire of appropriate instructional strategies and procedures, document student performance, and then reflect on the effects of his/her instruction on student learning. The MEES is aligned with the MoSPE Teacher Standards completed during student teaching, and evaluated by full time faculty advisors. The levels on the scoring rubric are Baseline =0, Emerging 1 = 1, Emerging 2 = 2 and Developing = 3. These data validate that candidates have the pedagogical content knowledge and skills required in their respective certification areas. Graduate data: The state (DESE) survey for 1st year teachers and administrators validates the program. The mean score of MSSU students falls above the state average for Use of Technology.

### Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

**a. Teach students with disabilities effectively**

Content and structure of the junior block component (EDUC 432, EDUC 321, and EDUC 423): Educ 321 – Microteaching (1 hrs. cr.): Short teaching episodes are prepared, taught, and analyzed via video-tape. The basic concern is with the demonstration of effective teaching skills as enumerated in the outline.

Educ 329 - Pedagogical Theory, Methods and Practices (4 hrs. cr.): Examines the theoretical basis for the decision making model of the teacher education program. Provides the methodological basis for making pedagogical decisions concerning lesson design, identification of learning styles, and assessment techniques. Forty-five hours of junior internship in the elementary, middle, and secondary school classroom provides an opportunity to refine theory into practical applications while observing practicum placement(EDUC 329) (32 hours) and observation checklist(EDUC 423) in same placement with various teachers, interviews, settings and meetings to participate in (13 hours).

Educ 423 - Classroom Management (3 hrs. cr.): Classroom Management Introduces concepts, skills, and models for developing a personalized three-dimensional approach to behavior and classroom management. How to prevent discipline problems, what to do when problems occur, and what to do to decrease the possibility of problems recurring.

EDUC 302-The Exceptional Child(3 hrs. cr.): The Exceptional Child - This course is designed for all majors and will include a series of awareness experiences dealing with the added complexities an exceptional student presents to a regular classroom teacher. This course emphasizes methods of meeting the educational needs of today's K-12 regular and special education teachers. This course emphasizes methods of meeting the diverse educational needs of today's K-12 students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional child, resources in the community, and legislation that determines school policy. Components of the aforementioned EDUC 302 and EDUC 329 courses as well as presentations by teacher education and pk-12 instructional and administrative experts. Physical Education Teacher Education majors take KINE 375: Adapted Physical Education

If yes, provide a description of the activities that prepare special education teachers to:

**a. Teach students with disabilities effectively**

EDUC 302 The Exceptional Child(3 or hrs) - This course is designed for 1-6 Elementary, 5-9 Middle School, and K-12 Art, Music, Foreign Language, ECE, ELL, and Special Education majors. It includes an introduction to the five areas of mild/moderate disabilities: learning disabled, mentally handicapped, behavior disordered, physically disabled, and other health impaired. A series of awareness experiences dealing with the added complexities an exceptional student presents to a regular classroom teacher. This course emphasizes methods of meeting the diverse educational needs of today's K-12 students through techniques of teaching, unit construction, and daily planning. Includes characteristics of the exceptional child, resources in the community, and legislation which determines school policy. EDUC 348

Transition Services(3 or hrs) - A coordinated set of activities for a student designed within an outcome-oriented process that promotes movement from school to post-school activities, including post-secondary education, vocational training, integrated employment, continuing and adult education, adult services, independent living, or community participation. Study of coordinated activities, including instruction, community experiences, employment, and other post school adult living objectives.

Educ 331 (3 hrs. cr.):Language Development for Exceptional Children - Required for certification in special education. Basic structures of language, normal sequence of language acquisition, and characteristics of language disabilities. Strategies suggested for both assessing and remediating language disabilities. Emphasis on translating to remedial programs.

Educ 410 (5) 3 hrs. cr.: Teaching in the Mild/Moderate Cross-Categorical Classroom: K12 - A methods course designed to give students numerous examples of curricular and instructional methodologies in the teaching of elementary and secondary students with mild disabilities in cross-categorical classrooms. Methodologies for students with learning disabilities, mental handicaps, behavior disorders, physical disabilities, and other health impairments are discussed.

Components of the aforementioned EDUC 302 and EDUC 329 courses as well as presentations by teacher education and pk-12 instructional and administrative experts.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Missouri Southern State University is a state-supported, four-year, moderately selective undergraduate teaching institution located in Joplin, MO. All Teacher Education Programs at MSSU are state approved by Missouri Department of Elementary and Secondary Education (DESE) and nationally accredited by the Council for the Accreditation of Educator Preparation (CAEP). The University's primary goal is to offer a baccalaureate program that fosters the total education of each student. Central to that mission is the strong commitment to international education, to the liberal arts, to professional and pre-professional programs, and to the complementary relationship that must exist between liberal and professional education in order to prepare individuals for success in careers and lifelong learning. Inherent in its international approach to undergraduate education is the University's desire to prepare its students to understand world affairs, international issues and other cultures as seen through their history, geography, language, literature, philosophy, economics and politics. Knowledge and understanding of other cultures of the world also promote better understanding of our own valuable cultural diversity. In implementation of this mission, all teacher education majors must complete EDU 230: Foundations of Education in a Global Society, partnering with area schools that have high diversity within their districts for observations. Missouri Southern State University's commitment to the liberal arts is reflected in a comprehensive program of general education requirements for all students to ensure that they have a breadth of educational experiences which will enable them to develop communication and critical thinking skills and to acquire and apply aesthetic, contemporary, civic, international, historical, mathematical, scientific and value-oriented perspectives. The faculty and staff of Missouri Southern State University emphasize quality teaching and learning as the most important attributes of the institution, complemented by scholarly and creative expression and dedicated community service. Community service involves responsiveness to the Southwest Missouri region as well as serving as the intellectual, creative and cultural center of the area. The Teacher Education Department offers a total of twenty-two areas of Missouri teaching certifications obtainable through completion of coursework and field experiences. These include Early Childhood, Elementary Education, Special Education, ELL, Middle School Education 5-9 (Math, Science, Social Studies, Communication Arts), Physical Education (K-12), Art Education (K-12), Foreign Languages (K-12 Spanish and French), Music Education (K-12 Vocal & Instrumental), Secondary Education (Math, Business, English, Speech & Drama, Social Science, Biology, and Chemistry.) Mission Statement of the Teacher Education Program The Missouri Southern State University Department of Teacher Education faculty and staff are dedicated to developing competent teachers who will incorporate into their classrooms a strong foundation of knowledge and pedagogy, a lifelong love of teaching and learning, and motivation to improve practice through reflection, self-study, and professional development. It is our goal to assure that all candidates become ethical classroom practitioners and cognizant of the need to help all students meet their full learning potential. The Missouri Southern State University Teacher Education faculty and staff realize we live and interact in a diverse and dynamic world. We believe that overall growth and learning is accomplished experimentally, through problem solving, evaluation, and reflection. We believe that the school is a diverse, democratic community, a microcosm of the larger society, so that the process of collaboration, problem solving, and reflection, characterize best practice in education. A new teacher must possess knowledge, skills and dispositions in order to assess problems, devise solutions, test those solutions, and make appropriate education decisions, to create a cyclical process that continually improves the learning environment of every student.
