Overview

IPEDS Student Financial Aid Component Overview - Academic Reporters

Welcome to the Student Financial Aid (SFA) survey component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

Data Reporting Reminders:

- Report data to accurately reflect the period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Undergraduate Student Counts
You will be asked to report information for:
 - All undergraduate students
 - Full-time, first-time degree/certificate-seeking undergraduate students (FTFT)
 - FTFT undergraduate students who (paid the lower of in-state/in-district tuition rate for public institutions and) were awarded any grant/scholarship aid from the federal government, state/local government, or the institution
 - FTFT undergraduate students who (paid the lower of in-state/in-district tuition rate for public institutions and) were awarded any Title IV federal student aid

- COA Revisions
Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component. Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.
- College Affordability and Transparency Lists
Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.
- Interactive Edits and Error Messages
SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.
- Context Boxes
You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the public.

Changes to reporting:

The following changes were implemented for the 2023-24 data collection period:

- Removed the 'Groups terminology'
- Renumbered lines on screens and in instructions
- Reiterated instructions on what is reported in each part for specific students and reporting periods
- Rephrased "room and board" terminology in survey materials to "food and housing," including Glossary terms
- Added FAQ regarding inclusion of incarcerated students

Section 1: Comparison Chart

Comparison Chart

Reporting Reminders:

- Based on the information reported on the previous screens for all undergraduate students and full-time, first-time degree/certificate-seeking undergraduate students, this comparison chart seeks to help institutions check their reported data. Assuming the information reported is correct, the calculated fields for 'All Other Undergraduate students' should be the balance. Similarly, comparison chart values for all degree/certificate and all non-degree/ certificate undergraduates should match the total reported in columns 1-4 in Section 1, Part B. If the balance does not check with your institution's calculations, please correct your reported numbers before moving forward with the completion of the SFA survey component.
- Data for all degree/certificate seeking undergraduate students and full-time, first-time undergraduate students are published on College Navigator.

Note:

- Data for the 'all other degree/certificate undergraduate' students and all non-degree/certificate undergraduate students will appear in the IPEDS Data Center for data users, but not in College Navigator.

Edit Report

Student Financial Aid

Source	Description	Severity	Resolved	Options
Screen: Page 2 - Full-time, first-time degree/certificate-seeking undergraduate students				
Screen Entry	The average amount of this type of aid awarded to FTFT Undergraduate students is outside the expected range of between 1,325 and 2,689 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	In 2021-2022, MSSU awarded our final round of HEERF grants. Per instructions, these amounts are included as other federal grants for all FTFT students for Fall 2021. Because of these funds, the average amount of other federal grants awarded to FTFT students in Fall 2021 was higher than typically reported. In 2022-2023, we did not award any HEERF grants, and this brought the average back to typical levels.			
Screen Entry	The average amount of this type of aid awarded to FTFT Undergraduate students is outside the expected range of between 3,376 and 4,740 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason	In 2021-2022, MSSU awarded our final round of HEERF grants. Per instructions, these amounts are included as other federal grants for all FTFT students for Fall 2021. The overall average amount of aid awarded to FTFT students is therefore less than typical in Fall 2021 because a greater percentage of FTFT students received other federal grant aid. In 2022-2023, we did not award any HEERF grants. Therefore, fewer students received other federal grant aid, and this brought the average back up to typical levels.			
Screen: Full-time, first-time degree/certificate-seeking undergraduate students				
Screen Entry	The number entered is outside the expected range of between 105 and 193 when compared with the prior year value. Please correct your data or explain. (Error #7169) <i>This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.</i>	Explanation	Yes	
Reason	In Fall 2021, the university opened a new residence hall increasing bed capacity. A higher percentage of students in Group 4 are living on campus when compared to previous years.			
Screen Entry	The total number of FTFT awarded Title IV Aid students who were awarded any Title IV aid across all income levels is outside the expected range of between 341 and 567 based on the prior year value. Please correct your data or explain. (Error #7333) <i>This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.</i>	Explanation	Yes	
Reason	While the total number of Group 4 students who were awarded any Title IV aid across all income levels is beneath the expected value, the inputs have been confirmed.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to FTFT awarded Title IV Aid students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317) <i>This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.</i>	Explanation	Yes	
Reason	That mid-level income range is likely one that impacts federal and state grant availability, which would cause the average award amount to decrease. Students in this income range tend to be less "needy" than their counterparts, which results in less awards overall.			
Screen: Military Servicemembers and Veteran's Benefits				
Screen Entry	This value is out of range compared to the prior year amount. Please correct your data or explain. (Error #7265)	Explanation	Yes	
Reason	Our institution has very small graduate programs and an even smaller number of graduate students receiving this type of Veteran assistance. In 2021, there was only 1 student and in 2022 there were 2 students. The sample size for comparison for year over year is very small and therefore open to more variance in average benefit/assistance amount.
