Vice President for Business Affairs (Mr. Rob Yust):

Highlights of Rob’s report are as follows:
- Construction
  - Athletic Support Facility. Work continues on the design and scope of an athletic support facility with the architects, Sapp Design Group, and the construction manager.
Vice President for Business Affairs (continued):

- **Baseball Stadium.** Design discussions are taking place on the future baseball stadium with the extent of the design subject to ongoing fundraising efforts.
- **Trail Project.** The City of Joplin is in the process of obtaining easements from property owners along the trail. Construction is planned to begin early next year.
- **Residence Halls & FEMA Shelter.** Rob introduced Bob Harrington who presented a PowerPoint that provided detail of the proposed new residence halls and FEMA shelter. The design of the new residence halls will have the appearance of an apartment/town house and will feature private entrances for each unit. Each unit will house four students who will each have their own bedroom and bathroom with a common living and kitchen area. Green space with common areas will also be featured. The design of the FEMA shelter will be included in the design of the residence halls and be built to accommodate up to 2,000 people in the event of a tornado.

Rob noted with the success of the Lion Pride Tuition program and the current low interest rates in the bond market, this is a good time to issue bonds for the construction of new residence halls and to also refinance some existing bonds which will result in a significant savings.

Governor McCumber thanked the staff for all of their hard work on this project and noted the Board’s Budget Audit committee met this morning at 10:30. On behalf of the Budget Audit committee, Governor McCumber brought forward and recommended the Board approve three motions as follows:

1. A motion was made by Mitch McCumber and seconded by Rod Anderson to authorize the Administration to issue a combined 2014 bond issue which will allow for the refunding of the outstanding Series 2000 bond issue and provide new money of $14 million, independent of cost of issuance, to be deposited into the project fund for construction of a new residence hall. Motion passed.

2. A motion was made by Mitch McCumber and seconded by Jim Fleischaker to authorize the Administration to utilize up to $800,000 in Board Designated cash to fund the portion of the FEMA tornado shelter not paid for by the Federal Grant. Motion passed.

3. A motion was made by Mitch McCumber and seconded by Jim Fleischaker to authorize the Administration to secure short-term financing, not to exceed $2 million, in order to purchase furniture for the new and the existing residence halls. Motion passed.

Highlights of Dr. Dworkin’s report are as follows:

- It is an extremely busy time of the semester for faculty and students preparing for the end of the semester and enrolling and advising for the spring semester. - Dr. Dworkin expressed appreciation to Dr. Lipira for responding quickly and openly to recent information requests from Faculty Senate.
- In November, Faculty Senate held an abbreviated meeting in order to allow people to attend the memorial service for Coach Moore. Some items of business had to be postponed, but two key Senate items were addressed as follows:
  1. Proposed change to the writing instruction across the curriculum. An additional discussion was held as a result of the October Senate meeting that involved faculty and staff. The meeting had great participation from faculty and staff with lively discussion taking place. Everyone in attendance had an opportunity for input resulting in a good process. As a result of concerns voiced during this meeting the committee drafted a revised proposal which Dr. Dworkin expects the Senate to vote on during its next meeting.
  2. Ideas from across the campus responding to the CQI (Continuous Quality Improvement) report were shared. Senators from various departments are ready to move the campus forward involving this process.
Faculty Liaison (continued):
➢ The policy review effort is ongoing on campus with good progress being made. A meeting with various individuals representing Senate and Administrative committees will take place soon to finalize another revised policy for the Faculty Handbook.

Everyone is encouraged to attend and voice their opinions and ideas.

Interim President (Dr. Alan D. Marble):
Highlights of Dr. Marble’s report are as follows:
- Dr. Marble noted sympathy for the tragic loss of Coach Moore. The campus pulled together during this very difficult time and had to make a quick decision to cancel Homecoming activities. Dr. Marble thanked the community for their support and apologized to those who had traveled to attend Homecoming, but noted cancelling it was the right thing to do out of respect for Coach Moore and his family. Cassie Mathes, Justin Maskus, Coaches, Counselors and many other individuals all worked together during this very difficult time to cancel activities and support the student athletes. Derek Moore’s family greatly appreciated the support shown to them by Dr. Marble, Jared and some of the coaches who were able to attend Coach Moore’s funeral.

- Dr. Marble and Richard Walter recently attended Governor Nixon’s Higher Education conference during which information was presented about next year’s budget. Predictions are any increase in funding for Higher Education will likely come through Performance Funding.

Work on the Funding Formula by Senator Pearce continues and work is also needed on funding amounts for scholarships both of which need to be fair and equitable.
- Dr. Marble recently attended a Student Senate meeting and noted Student Senate is doing great work. Discussion took place regarding what students think will help retention and as a result, Student Senate volunteered to form a Committee on Retention to gather ideas and provide feedback.

Rob voiced confidence in Rod being an ideal person for this role due to Rod’s familiarity with the area community, his experience in advertising and web development.

Rod thanked the Board for the opportunity to share information regarding his new duties and plans for the future for developing an ongoing revenue stream through different types of advertising and sponsorships. Four Winds Interactive will play a major role in this new plan by enabling electronic communications to students, faculty, and staff by businesses. Four Winds Interactive will also be a very useful tool to share campus information and can be used by departments to recruit new students and share information with current students. Rod made a PowerPoint presentation and distributed a new brochure both of which gave detail about Four Winds, advertising options and sponsorship opportunities.
