2023-2024 Graduates

Response to: What suggestions do you have for improving MSSU?

Better social connection opportunities.
I'm not sure. To be honest, my time at MSSU wasn't the best, but it has more to do with the main professors that I had rather than the institution itself.
Include more Christian groups on campus.
I got a great education from MSSU.
Students need to be more aware of hire a lion and know how to use it properly. I only had one or two professors inform a class I was in about hire a lion. I tried to use hire a lion a couple times, but I never found anything.
Work on the website; no more broken links, pages with no or very little content.
I have no substantial suggestions to offer to MSSU in this area.
If possible, changing how the stop light between the stadium and campus operates. For example, the light would be green for cars to go straight, but at the same time the light would also signal to students that they could walk across the road.
Insure all students have a ready path for internships and not as an option to help further their growth in education and opening small businesses connections for the community.
More help for the first time college students with onboarding and figuring out their major and navigating college.
Continue to offer remote learning for those that are non-traditional students attending higher education.
